Careers Coordinator Mrs. Irena Yevlahova

Reminder: VTAC 2021 Upcoming Key Dates

Timely applications through VTAC	Wednesday 30 September 2020
SEAS applications close	Friday 9 October 2020
Scholarships through VTAC close	Friday 9 October 2020

Please list your course preferences before 30 September!

If you change your mind about the courses, you can change your course preferences.

When can you change my preference -

Once you've applied, you can keep doing this as many times as you like, free of charge, until the closing date.

After you get your ATAR, you will have a short amount of time to change your preferences.

Finalise your preferences at this point to maximise your chance to receive the offer you want.

You can also change your preferences between offer rounds, but some courses may already have filled all their places.

Changing your application -

If you have made a mistake or left something out, and you want to change your registration or application details, see Making changes to your course application.

If you change your home address, email address and/or telephone number, you must update them in the 'Personal details' section of your VTAC user account as soon as possible to ensure you receive any important communication from VTAC.

Students applying for courses that have **essential requirements** (a folio, a pre-selection kit, an interview) are reminded that failure to meet the deadline date for these means students may no longer be eligible for selection into their desired course.

Students eligible to apply for **SEAS** are also encouraged to apply for **VTAC Scholarships**.

News from Monash University

➤ Important Notice for Medicine Applicants

Year 12 students applying for any of the undergraduate **medicine courses** are reminded that the closing date for VTAC applications is 30 September 2020. No late applications will be accepted. Students are also reminded that they should not remove a medicine preference from their VTAC preference list unless they no longer wish to apply for that course. Once removed, they cannot be added back in; they can, however, be moved up and down the preference list using the arrows.

VTAC's confirmation that Year 12 results will be released on 30 December 2020, has meant that Monash has had to make some changes to the MMI interview process for 2021 entry in order to meet the VTAC selection round on 14 January 2021. Most interviews will now be held in mid-December 2020 and selection for these interviews will be based on a ranking of applicants' UCAT test scores only.

Importantly, a second round of interviews will be held in early January 2021, for Victorian and rural interstate applicants. Selection will be based on a combination of final Year 12 aggregate scores and UCAT test scores as per the usual process. Interview dates will be posted on the [Important Dates](#) page and are subject to change. Applicants should make themselves available for all published dates if they wish to remain eligible for Medicine at Monash.

Interviews will follow the same scenario-based, multi-station format, but are highly likely to be conducted online via Zoom with fewer stations than in previous years i.e., to include 6 virtual stations. There is no additional preparation required for the interviews and applicants selected for an interview will be briefed accordingly. Shortlisted applicants will be invited to attend an interview via email (please check all mail and spam email folders) and will be required to log in to an online system to self-allocate a time to attend. Once the system closes, changes will not be permitted, and late requests cannot be accommodated.

More information regarding updates on admission requirements can be found at [Medicine Updates](#).

Diploma in General Studies (DiGS)

The Diploma in General Studies (DiGS) gives students a sample of various University of Melbourne degrees and provides a pathway to further tertiary study.

Open to domestic students, this one-year course provides students with the opportunity to study a wide range of subjects from Science, Commerce, Design and Agriculture - providing some students with guaranteed entry into a University of Melbourne degree based on their weighted average mark. **DiGS** provides a pathway to one of the following University of Melbourne bachelor's degrees:

- Bachelor of Agriculture
- Bachelor of Biomedicine
- Bachelor of Commerce
- Bachelor of Design
- Bachelor of Science.

News from Victoria University

➤ Important changes to Bachelor of Nursing at VU

Victoria University is introducing the CASPer test (domestic students only) and an ATAR to the applications process for the Bachelor of Nursing for 2021 entry.

CASPer is a scenario-based test, designed to grade the 'soft skills' of applicants – their strengths and suitability for the profession. While VU is the first university in Australia to introduce CASPer for nursing, it is following the success of universities in Canada and the US which use a similar test for pre-nursing students.

Students are also reminded that besides the CASPer test, they must also meet the VCE requirements of: Units 1 and 2: satisfactory completion in two units (any study combination) of any Mathematics or Units 3 and 4: any Mathematics; Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL.

Browse [CASPer](#) and also [Preparing for CASPer](#) and book a test at [CASPer Test - Dates and Times](#). Find out more about nursing at VU by browsing [Bachelor of Nursing at VU](#).

Diploma of Nursing Pathway

After successful completion of the *Diploma of Nursing* – which is currently a FREE TAFE course – students may have the option of applying to universities and being granted up to 12 months credit towards most 3-year Bachelor of Nursing qualifications. Box Hill Institute has specific articulation arrangements with *ACU, Deakin and La Trobe* Universities. The VTAC code for the Diploma of Nursing is 5100210164.

Find out more about the Diploma of Nursing at [Diploma of Nursing at Box Hill Institute](#).

Two more *new* courses RMIT is offering from next year include –

1. **Bachelor of Data Science**

In this degree, students will build a practical understanding of recent developments in *computer science, information technology and statistics*, and be able to apply relevant mathematical and statistical knowledge and methods to new and ongoing problems. Students will develop their ability to analyse and manage large amounts of data from various sources and evaluate their insights and solutions. In addition to strengthened problem solving skills, students will also learn to effectively communicate their work to technical and non-technical audiences, work independently or as a team, and factor in relevant standards, ethical and legal considerations to their projects.

Upon graduation from the Bachelor of Data Science, students will have the skills required to pursue a career as a *data scientist* in public and private organisations. The job titles may include *analytics specialist, business intelligence analyst or developer, data analyst, data architect, data engineer, data miner, data scientist, research scientist and web analyst*.

2. **Diploma of Applied Technologies**

This one-year course blends practical experience with electrical and control applications built on a strong theoretical foundation. Students in this diploma will achieve competencies in *testing, assembly, installation, and maintenance of electrical and automation control*. They will gain skills in operating a wide range of automated equipment and systems; learn to manage risk, develop, and manage maintenance programs; and provide technical advice. Students will also develop knowledge and skills in electrical control systems, including programmable logic controllers structured in an industry-based network called Supervisory Control and Data Acquisition (SCADA), electrical design, motor control, computer programming and software applications.

On completion of this course, graduates can either choose to go onto higher study into Manufacturing & Mechatronics, or seek employment as a *advanced manufacturing technician, cyber-physical systems technologist, digital technologist, Industry 4.0 systems technician, or Internet of Things data technician*.

Radiation Science (Informatics)

Do you want to improve healthcare through data and technology? Monash introduced the ***Bachelor of Radiation Science (Informatics)*** degree this year. This degree will provide students with training across medical radiation sciences and information technology, including systems and data management. Graduates of this course will be prepared for careers in the growing field of health informatics and at the forefront of the next IT-lead breakthrough in health.

Graduates may opt to go on and study further in specialisations such as –

- Master of Biotechnology
- Master of Business Information Systems
- Master of Cybersecurity
- Master of Data Science
- Master of Information Technology
- Master of Medical Ultrasound
- Master of Public Health

The VCE prerequisites are: Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; Units 3 and 4: a study score of at least 30 in Maths: Further Mathematics or at least 25 in one of Maths: Mathematical Methods or Maths: Specialist Mathematics. **Find out more at [Bachelor of Radiation Science \(Informatics\)](#)**

Bachelor of Educational Studies

The **Bachelor of Educational Studies** has been designed for domestic and international students who are passionate about becoming teachers, but do not achieve the entry requirements to go directly into a [Bachelor of Education \(Primary\)](#) or the [Bachelor of Education \(Early Childhood and Primary\)](#).

Although the 3-year **Bachelor of Educational Studies** allows students to gain a qualification to work in education-related fields other than teaching, it is also designed as a pathway for students who wish to consider future study in teaching in Early Childhood and Primary Education. Students who successfully complete the first year of this degree may be eligible to apply for transfer into the second year of the Bachelor of Education (Early Childhood and Primary) or the Bachelor of Education (Primary). Students who complete the three years of study can progress to a postgraduate Initial Teacher Education qualification.

Career in Carpentry & Cabinet Making

*The [Good Careers Guide](#) states that carpenters construct, erect, install, finish and repair wooden and metal structures and fixtures on residential and commercial buildings. Some carpenters may also carry out work on large concrete, steel, and timber structures such as bridges, dams, power stations and civil engineering projects. Carpentry is one of the many trades that come under **building & construction**. With further training and experience, a carpenter could become a building supervisor, building or construction manager, building inspector, technical teacher, estimator, building contract administrator or purchasing officer.*

Cabinet makers specialise in cabinetry which involves using specialist carpentry tools and techniques. Cabinet makers are skilled at using the latest technology in designing, manufacturing, and finishing quality fitted furniture for areas like kitchens, bathrooms, showrooms, shop fittings, etc.

Most cabinetmakers are employed by companies that manufacture kitchens, bathrooms, furniture, and prefabricated wooden components. These companies are often small businesses that make custom-made items or undertake repairs and restoration, or larger companies that manufacture and install fixed or free-standing furniture for commercial and residential projects. **Find out more at [Career Explorer - Cabinet Maker](#)**

Study for a Career in Mining

Mining engineers are responsible for planning the safest and most cost-effective way of removing minerals from the ground, rivers, and the seabed. They are also responsible for protecting conditions for both people and the environment near mines.

Nutrition And Dietetics Courses in Victoria in 2020

According to the Dietitian Association of Australia (DAA) - [Dietitian Association of Australia \(DAA\)](#), there is a distinction made between dietitians and other occupations in the nutrition and food science field, including that of nutritionist. The key difference between a dietitian and a nutritionist is that, in addition to or as part of their qualification in human nutrition, a dietitian has undertaken a course of study that included substantial theory and supervised and assessed professional practice in clinical nutrition, medical nutrition therapy and food service management.

So, in Australia, all dietitians are nutritionists however nutritionists without a dietetics qualification cannot take on the expert role of a dietitian.

Victorian universities offering undergraduate courses in nutrition, food science and/or dietetics include:

UNIVERSITY	COURSE	VCE PREREQ' SUBJECTS	ATAR 2020

Paramedic Courses in Victoria in 2020

The Good Universities Guide states that *paramedics provide pre-hospital emergency care, treatment and specialised transport for patients* - [Good Universities Guide - Paramedic](#)

Working as an ambulance paramedic means that no two days are ever the same. What a paramedic does can be as varied as *restarting a patient's heart down* to helping solve social welfare issues. Ambulance paramedics are called when people feel they have no other options and are suffering what feels like an emergency to them. An interesting fact to remember when applying to become a paramedic is that the majority of the workload is not lights and sirens driving to save a patient's life. ***This job is more about helping people in their time of need as opposed to being a hero.***
