

Getting vaccinated

To stop me from getting sick, I will be getting a needle. It's called a vaccine.

I will sit down on the chair and try to be still.

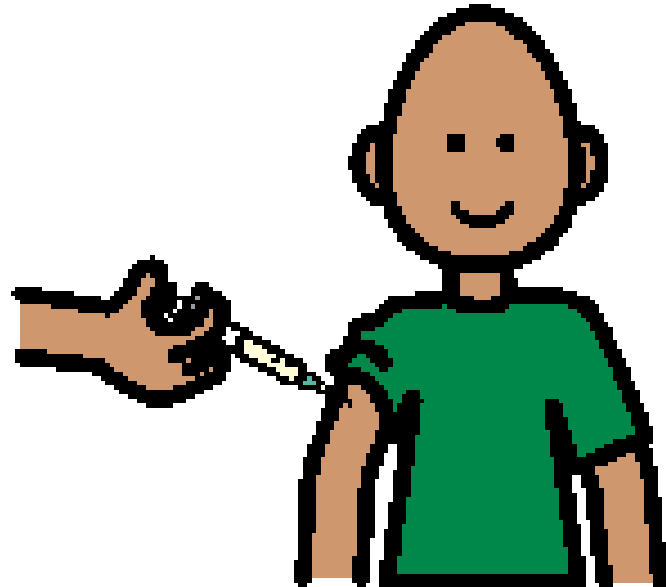

Mum or Dad will be there to help me.

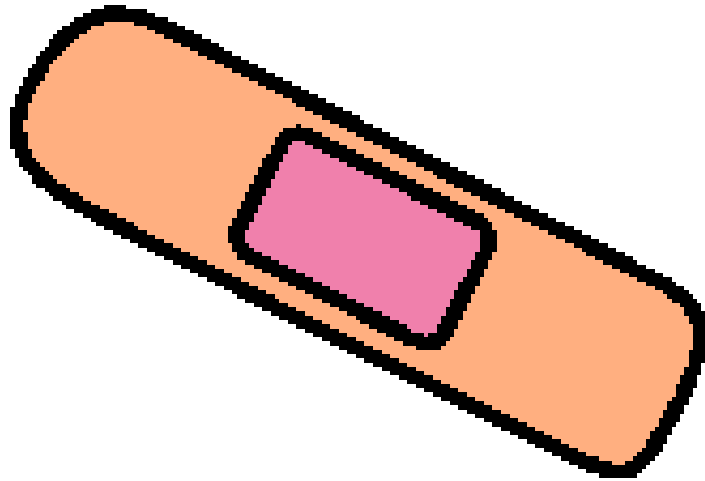

The nurse will clean my arm with a cold wipe.

The nurse will put the needle into my arm. It will feel like a scratch.

The nurse will put a bandaid on my arm.

Everyone will be proud of me for being brave.
