

## Build their future!

Years 7-12 female and gender diverse students are invited to explore the exciting world of trade and tech industries so they can:

### experience.

Experience hands-on activities, engaging displays and supportive conversations lead by women working in diverse industries.

### learn.

Learn about rewarding well-paid career opportunities in traditionally male focused industries.

### discover.

Discover career pathways in industries including building, electrical, automotive, aviation, plumbing, marine, robotics, clean energy, gaming, and many more.

TRADE &  
TECH FIT

Career expo  
8-9 May 2024

Melbourne  
Convention  
and Exhibition  
Centre

### interested?

Register to bring  
your students.

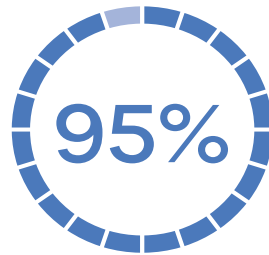

**of surveyed students said it helped them understand careers in trades and technology.**

The Trade & Tech Fit expo is a unique opportunity to expand the range of career options available to female and gender diverse students. The expo's welcoming and enthusiastic environment features hands-on experiences, engaging displays and supportive conversations that allow students to imagine new capabilities and possibilities.

Formerly known as The Trades Fit, the expo also has an expanding number of technology exhibitors including clean energy, software, gaming and electric vehicle businesses.

Hosted by the department, the Trade & Tech Fit features exhibitors across numerous industries including building and construction, engineering, automotive, transport and logistics, robotics, mining, transport, agriculture and horticulture, aviation and aerospace, and more.

By bringing students, teachers and career practitioners can be the catalyst for unlocking students' career potential in many growing and critical sectors of Victoria's economy.

**of teachers would be more inclined to recommend trades and tech pathways to female and gender diverse students after attending the expo.**
