

## OPENING THE DOORS FOUNDATION

The majority of Aboriginal and Torres Strait Islander children are thriving and growing up strong in their cultures, with support from their families and communities.

However, a significant number of children continue to face ongoing challenges stemming from colonisation and its effects. This includes discrimination, poverty, systemic removal, intergenerational trauma, dislocation from land and culture, and community disempowerment.

St John's FIRE carriers invite the community to join with us as we walk to support the 'Opening the Doors Foundation'.

The foundation supports Aboriginal students in accessing education and resources that they may not have been able to without financial support.

**WHEN:** Friday 4th August at 8:15a.m

**WHERE:** Frank Street Reserve, 67 Frank Street, Frankston

**WHY:** To raise awareness and funds for Aboriginal and Torres Strait Islander children who need support to attend schools of their choice.

We are accepting Gold coin donations  
to raise funds for  
Opening the Doors Foundation

To achieve equality, we must approach these challenges through a holistic approach, considering Aboriginal and Torres Strait Islander children's wellbeing, safety and development.
