

JobJump Careers News Subject Bulletin

15 July 2021

**IMPORTANT MESSAGE TO HEAD TEACHERS and ALL STAFF
and to Parents,**

It may only take one piece of news to lead a student towards success in their life's career.

If you know students enjoy your subject, this is a great way to assist them, so please encourage them to take part in those events mentioned below in your Subject Area. Find below a listing of special careers news that have also been emailed out to many of our students and their parents.

SPECIAL MESSAGE REGARDING EVENTS LISTED AND COVID-19

Events listed are presented as reported from the home website at the time of collection from the news source. We strongly advise you check directly with the event organisers regarding the delivery of the event due to current restrictions.

HSC SUBJECT KLA / FACULTIES

WSU - Bachelor of Music Applicants

Applying to Western for Music

All music applicants will need to apply through UAC or direct.

You may either audition into the degree or submit qualifications for Band 4 HSC Music, or AMEB theory and practical qualifications or TAFE qualifications.

To audition for the degree, book a time through the link below. You will be asked to perform two short, contrasting pieces or songs (or excerpts of two pieces) and/or perform one piece and present one or more compositions as scores and/or recordings. Works performed can be covers or originals, performed solo or with accompanying musicians or with backing tracks on your phone.

Auditions will be held on the following dates:

- **2021**
 - Friday, 27 August
 - Tuesday, 16 November
 - Wednesday, 17 November
 - Thursday, 18 November
- **2022**
 - Tuesday, 18 January
 - Wednesday, 19 January
 - Thursday, 20 January

<https://www.westernsydney.edu.au/future/study/how-to-apply/music-applicants.html>

Book an Audition here:

University of Sydney Tertiary Jazz Pre-Audition Workshop

24 July, 2.00-5.00pm

Are you planning to audition for a Conservatorium tertiary degree in jazz? Be well informed about the audition requirements and process so you can achieve your best result in this highly competitive field.

This three hour workshop includes discussion and demonstration of the process, a mock Jazz aptitude test and the opportunity for some students to have their mock audition critiqued by members of the Tertiary Jazz staff in front of your peers (this is optional). This is an invaluable opportunity to ensure your optimum preparation for the "real thing".

Kick-Start Your Journey in Games & Film, Beginner's Courses at Academy of Interactive Entertainment

Commencing 16th November

This beginner course has been designed to help develop the skills and knowledge to define and develop game mechanics including the use of game design documentation, prototyping gameplay, interactive environments and the process behind Q&A for games. You will be using industry standard software, the Unity game engine as well as Pro Builder to create a playable game prototype.

The course will provide you with a portfolio piece which will help establish or enhance your portfolio of work for entry into further study.

This beginner course has been designed to help develop the skills and knowledge to create 3D games using the 3D game engine, Unity. Get an introduction to industry standard tools and techniques for game development. Learn C# to script game interaction and design game mechanics to create gameplay.

The course will provide you with a portfolio piece which will help establish or enhance your portfolio of work for entry into our Career Courses.

This beginner course has been designed to develop skills and knowledge in 3D animation using Autodesk Maya, the most widely used 3D animation software used in the games, visual effects and simulation industries. At the end of the course you will have a completed short animation sequence using your own modelled and animated 3D assets.

The course will provide you with a portfolio piece which will help establish or enhance your portfolio of work for entry into our Career Courses.

Be ahead of the game. Study game programming, 3D art and animation under industry experts at AIE while you're still at school! Endless pathways await you in the game and film industry. Mid-year courses starting 24 July. Enrol now!

Your future in engineering and technology at Sydney

22 July, 2021 07:00 PM

The future graduates from Computer Science, Project Management and Engineering must have certain knowledge, skills and abilities in their chosen field. They also have an obligation to use this knowledge, skills and abilities in ways that add value to all of their stakeholders in their work which includes their professional self, their employer, their team, their client, the end user of their work, the local and global communities and also their professional society and their university.

https://uni-sydney.zoom.us/webinar/register/WN_Bea283ZhQCi9Wbgl7rh0LQ

Your future beyond the lab at Sydney

27 July, 2021 07:00 PM

A degree in science or engineering does not mean you simply have to become a “scientist” or “engineer”. In fact, after you graduate your career trajectory may lead to infinite possibilities! As technologies transform all industries, from traditional laboratory science and health research to professional services and engineering consulting, STEM remains big business and career possibilities continue to grow.

https://uni-sydney.zoom.us/webinar/register/WN_PGZ6j8hQTUumhwsQgU2kOA

Dentistry and the Bachelor of Oral Health

4 August, 2021 04:00 PM

Hear about Sydney's Dentistry and Oral Health programs and how they lead to a stand out career path. Oral Health Therapists are an integral part of the dental health team of practitioners and a profession in their own right.

Your journey from high school science to next-gen science at Sydney

29 July, 2021 07:00 PM

So you're about to finish Year 12 and thinking about pursuing a future in science, but not sure where to start? Despite common misperceptions that there may only be one 'scientist' career, there is actually no set route for a career in science. Hear from our leading academics in the “traditional” sciences of chemistry, physics and biology, and learn how a degree in science will build on what you have learnt in high school and open up a world of opportunities in the STEM sector.

https://uni-sydney.zoom.us/webinar/register/WN_hJcCHmBcRfe_vWzagqPc7Q

Science Student Panel and Q&A at Sydney

11 August, 2021 04:00 PM

Thinking about pursuing a future in Science and want to know more? Join us to hear from our current Science students about what they are studying. Learn how studying for science or mathematics may be different to studying other subjects and get some tips for the HSC.

Your free guide to a career in Optometry

Given that approximately 75% of vision loss is preventable or treatable, there is usually something that can be done to help your patients.

Given that work-related factors such as clinical challenges keep 78% of Australian optometrists happy and satisfied with their profession, you will most likely enjoy this profession if you like the challenge of putting together all the clues to reach a diagnosis and management plan in complex cases.

The scope of practice of optometrists is expanding. Students commencing an optometry degree in the future will be therapeutically endorsed when they graduate. This means that they will be better placed to assist some of their patients who present with eye inflammations, infections and injuries. It is expected that the number of people presenting to optometrists instead of emergency departments with eye injuries will increase

<https://www.myhealthcareer.com.au/optometry-career/>

Careers with STEM: Engineering

4 August. 12.00

Engineers have always been important innovators, but as the world recovers from COVID-19, they're literally at the forefront of rebuilding everything – from the economy, to our health system, agricultural practices and building new products. In fact, in 2021 there are more engineers needed than ever, which makes studying it at uni – or through a TAFE or trade school – a seriously smart career move.

Stumped on how to sift through the thousands of engineering-types out there? Join this webinar to find out what are the most in demand jobs and skills and talk to three professionals who are living their engineering dream.

<https://www.eventbrite.com.au/e/careers-with-stem-engineering-tickets-161996484847?aff=ebdsoporgprofile>

ANU - Live science show by Dr Graham Walker

1 August

Join Dr Graham Walker for a special open-air live science experience, part lecture but mostly science show. Strap yourself in for a wild ride through a series of physics and chemistry as we blast, launch, laugh, ignite and explode our way through of series of astonishing experiments - including some to celebrate 75 years of our ANU. We'll 'rocketise' innocent soft drink bottles, launch teddy-bears with liquid nitrogen, create marshmallow-firing weapons of mass suction, create some jolly big (safe) explosions... and heaps more! It'll be pant-wettingly exciting!

This event will have three sessions; 11.30-12.15pm , 12.30-1.15pm, and 1.30-2.15pm, therefore please register soon to book a place.

<https://www.anu.edu.au/events/anu75-live-science-show-by-dr-graham-walker>

UNSW - Zero Carbon World

27 July. 6.30pm

The age of zero carbon is coming, but the question remains: will it be fast enough to mitigate the worst impacts of the climate crisis?

While politics in Australia is still struggling to accept this much needed energy shift, there is cause for hope when we look to our fast-moving industry leaders, researchers and innovators.

The pace at which things are changing is genuinely jaw-dropping. There is the plummeting cost of solar power, which has happened decades ahead of previous estimates; a similar trajectory now forecast in the wind power and battery storage fields; and the view of hydrogen on the horizon. And in all these things, investors are voting with their money.

ACU Passion for Law Early Entry - ACU Guarantee Program 2022 Entry

All Thomas More Law School Criminology and Law degrees

Applications close midnight Friday 24 September

Current Year 12 (2021) students are eligible to apply for the [ACU Guarantee Program](#).

The ACU Guarantee program offers eligible Year 12 students a place at ACU based on your Year 11 results, so you guarantee your place at ACU, even before your Year 12 exams have started.

By assessing your Year 11 results, we can give you a predicted selection rank and make you an offer before you sit your HSC/VCE/QCE. Of course, your final exams still matter – and you still need to finish Year 12 to validate your offer – but you can tackle them comforted by the fact that you already have a place in your university degree of choice.

Register your interest.

Applications for both Criminology and Law degrees under the ACU Guarantee Program will open later this year.

If you would like to be notified of updates and information about important dates and events of interest to the broad justice community, please [Register your interest](#) here.

I.T. Lovers - GovHack

GovHack is an annual Open Data competition held across Australia. In 2021 it will be held on the weekend of 20th - 22nd August

In 46 hours teams create a project page, proof of concept and a video that tells the story of how government data can be reused.

Doors generally open at 7PM local time Friday 20th August (confirm with event times below)

Some venues will keep the doors open all 46 hours! However good ideas need sleep, so many will close late and reopen in the morning.

Attending a GovHack event

GovHack is a free event to attend for competitors.

GovHack events are recorded in video, audio and photographic form. By attending, you acknowledge and accept that you may be the subject of such recording and your image may be publicly displayed in connection to the event. We will seek to accommodate but cannot guarantee any specific wish not to be recorded or image displayed.

Node events may not have all the bells and whistles of an Official event. They are unique as they cater to our community groups with Youth, Makers or Special Interest themes.

https://hackerspace.govhack.org/competition_events

Career Expeditions – Dive into a virtual world of coding careers

We've teamed up with Google to bring you three amazing virtual career expeditions. Through the Google Expeditions app, teachers can immerse students in a day in the life of a coder. All you need to get started is a smartphone or tablet and a VR headset like Google Cardboard.

<https://careerswithstem.com.au/google-expeditions/>

What is the NCSS Challenge?

Starting on Monday 26th July, 2021

The NCSS Challenge is a programming competition open to all school students and teachers. The Grok Learning team have been running coding competitions like the challenge for over 12 years.

The NCSS Challenge is unlike any other programming competition. We'll teach you how to program as we go along, rather than expecting you to be an expert already. If you're a seasoned coder, we have something for you too – the problems range from relatively simple to mind-bendingly hard.

Starting on Monday 26th July, 2021 and running for about 5 weeks, we will release notes and problems containing the information you will need to complete the week's programming challenges.

<https://groklearning.com/challenge/>

The Hotel School Australia Insights Day

15 August

VET COURSES

How to Apply - What to do when you've decided on your degree

Applications for the next intake are now open.

To submit your application, select the degree you're interested in above and click 'Apply Now'.

Once you apply (and we have received your application) we will go through it to determine if you need to provide any additional information to support your application, and contact you to let you know if you do.

Then, when your application has been received and assessed you will be notified of whether you have been successful, within 21 days, and you will be sent information about how to enrol.

You can find out more about the course, including entry requirements, by clicking on the course name above.

WSU - Bachelor of Music Applicants

Applying to Western for Music

All music applicants will need to apply through UAC or direct.

You may either audition into the degree or submit qualifications for Band 4 HSC Music, or AMEB theory and practical qualifications or TAFE qualifications.

To audition for the degree, book a time through the link below. You will be asked to perform two short, contrasting pieces or songs (or excerpts of two pieces) and/or perform one piece and present one or more compositions as scores and/or recordings. Works performed can be covers or originals, performed solo or with accompanying musicians or with backing tracks on your phone.

Auditions will be held on the follow dates:

- **2021**
 - Friday, 27 August
 - Tuesday, 16 November
 - Wednesday, 17 November
 - Thursday, 18 November
- **2022**
 - Tuesday, 18 January
 - Wednesday, 19 January
 - Thursday, 20 January

<https://www.westernsydney.edu.au/future/study/how-to-apply/music-applicants.html>

Book an Audition here:

VET Information and Digital Technology

Kick-Start Your Journey in Games & Film, Beginner's Courses at Academy of Interactive Entertainment

Commencing 16th November

This beginner course has been designed to help develop the skills and knowledge to define and develop game mechanics including the use of game design documentation, prototyping gameplay, interactive environments and the process behind Q&A for games. You will be using industry standard software, the Unity game engine as well as Pro Builder to create a playable game prototype.

The course will provide you with a portfolio piece which will help establish or enhance your portfolio of work for entry into further study.

This beginner course has been designed to help develop the skills and knowledge to create 3D games using the 3D game engine, Unity. Get an introduction to industry standard tools and techniques for game development. Learn C# to script game interaction and design game mechanics to create gameplay.

The course will provide you with a portfolio piece which will help establish or enhance your portfolio of work for entry into our Career Courses.

This beginner course has been designed to develop skills and knowledge in 3D animation using Autodesk Maya, the most widely used 3D animation software used in the games, visual effects and simulation industries. At the end of the course you will have a completed short animation sequence using your own modelled and animated 3D assets. The course will provide you with a portfolio piece which will help establish or enhance your portfolio of work for entry into our Career Courses.

Be ahead of the game. Study game programming, 3D art and animation under industry experts at AIE while you're still at school! Endless pathways await you in the game and film industry. Mid-year courses starting 24 July. Enrol now!

I.T. Lovers - GovHack

GovHack is an annual Open Data competition held across Australia. In 2021 it will be held on the weekend of 20th - 22nd August

In 46 hours teams create a project page, proof of concept and a video that tells the story of how government data can be reused.

Doors generally open at 7PM local time Friday 20th August (confirm with event times below)

Some venues will keep the doors open all 46 hours! However good ideas need sleep, so many will close late and reopen in the morning.

Attending a GovHack event

GovHack is a free event to attend for competitors.

GovHack events are recorded in video, audio and photographic form. By attending, you acknowledge and accept that you may be the subject of such recording and your image may be publicly displayed in connection to the event. We will seek to accommodate but cannot guarantee any specific wish not to be recorded or image displayed.

Node events may not have all the bells and whistles of an Official event. They are unique as they cater to our community groups with Youth, Makers or Special Interest themes.

https://hackerspace.govhack.org/competition_events

Career Expeditions – Dive into a virtual world of coding careers

We've teamed up with Google to bring you three amazing virtual career expeditions. Through the Google Expeditions app, teachers can immerse students in a day in the life of a coder. All you need to get started is a smartphone or tablet and a VR headset like Google Cardboard.

What is the NCSS Challenge?

Starting on Monday 26th July, 2021

The NCSS Challenge is a programming competition open to all school students and teachers. The Grok Learning team have been running coding competitions like the challenge for over 12 years.

The NCSS Challenge is unlike any other programming competition. We'll teach you how to program as we go along, rather than expecting you to be an expert already. If you're a seasoned coder, we have something for you too – the problems range from relatively simple to mind-bendingly hard.

Starting on Monday 26th July, 2021 and running for about 5 weeks, we will release notes and problems containing the information you will need to complete the week's programming challenges.

OTHER FIELDS

Australian Maritime College Short Online Courses

Upskill and progress your maritime career. Work with research experts to test and optimise maritime designs and prototypes. Hire our vessels and facilities for commercial or scientific work.

AMC Search is the maritime training and consulting division of the Australian Maritime College. Whatever your needs, we work with you to design and deliver solutions that meet them.

A growing range of courses can be completed entirely online and at the student's own pace, meaning reduced travel costs, time and the flexibility to combine work and study.

AMC Search courses are designed to make online learning more effective and interesting for trainees.

We deliver training courses that utilise simplified gamification teaching techniques with video, 3D and VR content.

AMC Search has over 27 years of experience in both face-to-face and online maritime training.

Interested in Becoming a Pilot? Flight Virtual Reality Experience Schools Program

Flight Experience works with local universities & schools to conduct education and training programs for students.

Read on for examples of what Flight Experience can do for your classroom.

For the past few years, Flight Experience has been working with both universities and schools to develop educational and fun programs for their students. With courses focusing on the importance of situational awareness to the fundamentals of flight and aerodynamics, we have been able to use our state-of-the-art 737 simulator to educate and expose students to the wonders of aviation.

There are many aspects of commercial aviation which can be brought into other industries. The medical industry, among many others, have taken lessons and experience from the world of commercial pilots. Perhaps your school, university or even company could learn and develop these skills in our simulators.
