

## NSW HOLIDAY

The night before the trip, my auntie picked me up from my mum's house and brought me to her house. I was sleeping over because she was coming on the trip too. They were going a day later than my nan and pop. I went with them because my mum didn't want me to miss school photos if I went with my nan and pop.

We left my mums house around 5:10pm and got home around 5:55pm. I set my stuff down in the lounge. My cousin Hayden wasn't home because he was out with his dad (my uncle), getting snacks for the 4 hour drive we have the following day. They got home around 6:10 and me and Hayden got straight to catching up.

The next morning was a rush! My uncle woke us all up at 8:00am, we all dragged our bodies out of bed and had breakfast. We were scheduled to be out the door by 8:30, but that did not happen. We got dressed and gave our bags to my uncle to load in the car and trailer. Hayden and I got in the car, having the snack tub in between us, Hayden on the left side and me on right side, with our bags in the middle of our feet. My uncle attached the trailer and we were off.

The first 2 hours of the drive was smooth, we stopped at Seymour to get Maccas. Hayden and I got 20 nuggets to share and we got frozen cokes each.

After a long drive we finally arrived. My nan, pop, and their friends Deb and Alex. I got out of the car to stretch my legs, then I went to go check out my tent that I sharing with my nan and pop, there's a big divider in the middle so I can have my own room.

Next we had dinner, dinner is one of my favourite times of the day. The torches, the dark and just the yummy roasts. We spent hours talking round the fire and roasting marshmallows. Hayden and I want to ride our bikes but we had no light to ride in. My uncle taped this little adjustable light on to each of our bikes.

The next morning, we got up early to go to the market. I love waking up in the morning in my tent, my nan woke me up at 8 and I got dressed and had a egg and bacon roll my pop had made me. Me and Hayden got on our bikes and started to ride ahead, we finally waited for everyone to catch up and we all went to get ice cream before walking in to the market. There was stalls on both

sides and we started on the right side first. Since my mum and brother didn't come we had to get them a gift. The crystal stall is my favourite, I got a amethyst, 1 quart's tower, and a \$2 scoop. My nan got a quart's tower and a scoop too. My uncle got a sign about cars, my auntie got a skirt for her and my mum, and Hayden got a Chicago Bulls jersey. I got a jersey for my brother too.

We rode home and had lunch. We had salad rolls with left over bacon from this morning on the side. My auntie, uncle and Hayden went down to the river and I had a nap because I was tired.

After a few days we had 1 day left. My uncles' friend was coming up with his son; Their names were Noah and Tom. My uncle woke up and made space for their tent. He had their tent so he set it up and they arrived just as. We all said hello. The day was pretty slow and we just talked until dinner and bed came around.

Pack up was very busy. I went home with my nan and po so I had the whole back seat to myself. I felt a bit sick so I set up my bed in the car, There was dry spots under all of our tents and cars. We all said our goodbyes, even though we will probably all see each other on the weekend. Then we hopped in the car and I fell asleep.
