

KSHP Terms & Conditions

I give consent for my child to take part in the program, excursion and camps. I have read and fully understand any information I have received regarding the program.

I accept that part of the program may be concluded at venues outside the designated centre and give permission for my child to be transported by council staff member.

I am aware that the City of Casey will take no responsibility for stolen/misplaced valuables or personal belongings.

I understand my responsibility to provide notice to the program organiser should my child no longer be able to attend the program. I also understand that if notice is not provided, staff will make contact via phone and/or email. It is important to note that if there are multiple days in which your child does not attend the program then their place in future events will be forfeited and provided to a child on the waitlist.

In the event of my child continually behaving inappropriately and/or not complying with behaviour guidelines, I agree to immediately collect my child from the program, excursion, or camp or to reimburse Council for any costs involved in the return of my child from the program, either locally or interstate. Following this, I understand if my child is continuously upkeeping inappropriate behaviour throughout the duration of the program, they can be removed and banned from the program if deemed appropriate for the safety of staff and other participants.

I understand that staff cannot administer medication to my child. However, can be held by staff and retrieve the medication at the time medication is due, and hand it to the young person, prompting the child to self-administer.

I agree that neither the City of Casey nor its officers are liable for any damage or injury that may be incurred by and/or to my child attending youth services programs or any of the activities in connection with the programs, including excursions or camps.

In case of an emergency, I understand that my child will be transported by ambulance or private motor vehicle to a hospital. If my child is transported by ambulance, I understand that I may incur a cost.
