

Remember

By Maria Villareal and Trang Nguyen, Year 10

Don't think life is like a straight line,
think about it like a Rubik's cube, that each configuration is a path in life.

There are challenges in this world that are hard not that easy,

That in the process of working for your dreams,

You will experience a lot of FAILURE, a lot of PAIN,

A lot of DISAPPOINTMENT , be brave

Don't be scared, don't sit on your couch collecting dust, get out, explore the WORLD and
make your dreams come true .

Whether you suffer from anxiety, and loneliness,

Never ever lose HOPE, never ever be a prisoner in a small cell full of FEAR,

Never ever let DOUBT enter your minds killing your DREAMS.

When things go wrong, as they sometimes will

Never quit!!

Don't say "oh screw this I can't take it ANYMORE!",

"Oh, why is this happening to ME?, It's too LATE, I can't do IT!, it's IMPOSSIBLE!

NO!....."

All things are possible.

When you have problems at school,

Not having a high ATAR score,

Getting rejected from job interviews,

Working in a job that you don't like,

With tears coming out of your eyes,

You might fall so many times in life,

I guess things could've been worse,

But HEY! YOU ARE STILL ALIVE.

You have the ability to bring yourself from the slums of life

And be a successful person that lives your DREAMS.

Don't let anyone block your way,

Don't listen to negative people what they say.

You want to be an engineer, doctor, businessman, or even a councillor

But listen! you can't reach that level until you start investing in your mind.

Don't be those people that stop working, stop growing and like to complain, and

Don't wanna do anything about their situation.

Don't give up, you have to believe, you can be the change that the whole world needs!

Be a risk taker!!

To get something you never had, you have to do something you never did.

Failure is the key to success!

Remember that you will survive.

Remember life is to climb up high.

Remember when the world knocks you down, get back up.

Remember that life is like riding a bike, to maintain your balance you must keep going.

Remember, success is always to try just one more time and SAY,

"it's not over until I WIN!

Don't give up on your dreams, use your time wisely.

We are stars, in the night, shining bright through the trees.

Follow your paths, follow your dream.

No matter how complicated life is, if you keep a good heart, you will always be happy.

When you meet people, convey this positive energy and mindset to them,
and learn how to use that to make an impact and difference in the lives of others.

That will be true success.
