## MUSIC IS

science  
mathematical  
foreign language  
history  
physical education  
music develops insights  
and demands research.  
Music is all these things  
but most of all  
**music is art.**

That is why we teach music. Not because we expect you to major in music. Not because we expect you to play or sing all your life. But so you will be human. So you will recognize beauty. So you will be closer to an infinite beyond this world. So you will have something to cling to. So you will have more love, more compassion, more gentleness, more good – in short more life.
