

Country Fact Sheet Mini Research Project

Name:

Learning Intention: We are learning about places within continents made up of many different countries with varying climate, vegetation, land size, population, animals, terrain and sustainability.

Task: You will be choosing a country that interests you. Once you know your chosen a country and know what continent or location within the world it is, you will need to engage in some research. All information will be drafted in your books, then publish into a 'fact sheet'.

Student tip: Use books, atlases, and safe websites to find your information. Be creative with colours and pictures when publishing your fact sheet.

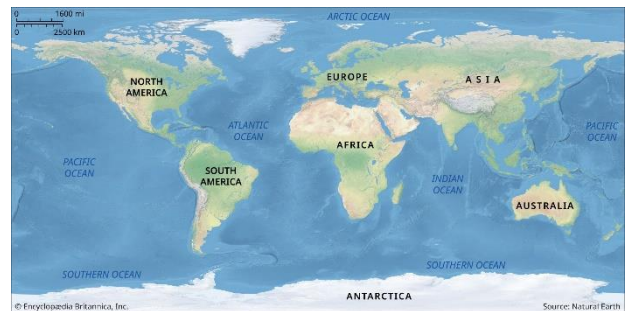

My chosen country is:

Success Criteria – You will need to include:

- Title (of your chosen country)
- Pictures of your chosen country and their flag.

Subtitles of:

- Continent:
- Capital City:
- Climate:
- Vegetation:
- Land size:
- Population:
- Animals:
- Terrain:
- Sustainability:

Optional: Fun facts section, culture, currency, local language

Key terms:

Continent: A very large area of land on Earth, like Africa, Asia, or Australia. There are seven continents: Asia, Africa, North America, South America, Antarctica, Europe and Oceania.

Climate: The usual kind of weather a place has over a long time (like hot, cold, rainy, or dry).

Vegetation: All the plants that grow in a place, such as trees, grass, or flowers.

Land size: How big a piece of land is.

Population: The number of people who live in a place, like a town, city, or country.

Terrain: The way the land looks and feels, like mountains, flat plains, deserts, forests, or rivers.

Sustainability: Using the Earth's resources (like water, trees, and energy) in a way that keeps them safe and available for the future.

Currency: The money used in the country
