

To the RNPS community,

Over the last couple of weeks in Grade 6, students have been working to complete our CBL challenge, with our main topic of Sustainable Cities and Communities. Grade 6's were set a challenge to encourage others to shop locally.

A group of students have chosen to ask the RNPS community to donate items that have been bought from local stores, such as IGA or Jeffries. Locally bought items will then be donated to the RSPCA and the Salvation Army.

Items that can be donated are canned or packaged food(**NO** nuts), pet food, pet toys, hygiene products and or any other products that would be appropriate to donate. Remember only **locally bought** items will be accepted.

Starting on Friday 7th, a donation bin will be in the Grade 6 area to donate locally bought items. All donations must be given in by Friday 14th, so they can be given to the chosen charities. Please bring in something to support local businesses and help raise awareness.

Thank you,  
From the Grade 6 team
