Villanova College 6A 54 def. Marist 6A 0

Looking to build on their positive start to the season, Marist 6A faced a difficult challenge against Villanova College in a stand-alone fixture after St Peter's Lutheran was unable to field a 6A side. Unfortunately, the match quickly became a test of resilience and character, with Villanova claiming a 54-0 victory.

Already under pressure with only 17 players named, Marist suffered a major setback before kick-off when powerful prop forward Will Barden was ruled out through illness. The disruption continued early in the contest when six-try hero Leo Mylne and Henry Wilton were both forced from the field following an unfortunate friendly-fire head clash inside the opening ten minutes.

Five minutes later, captain and scrum-half Jack Mannix was also ruled out with a head knock, leaving Marist severely undermanned for the remainder of the game. Playing with just 13 available players against a full Villanova side made an already difficult challenge even tougher.

Despite the adversity and the scoreboard, the team showed admirable resolve in the second half, continuing to compete and work hard for one another under difficult circumstances. While the result was disappointing, the courage and determination displayed by the group did not go unnoticed.

The team will dust themselves off, recover well, and look to get their season back on track next week.

6B

The boys played well against a higher ranked team ending it in a draw. The 6Bs should be extremely proud of their performance, coming back from 3 tries down in the second half.

This game wouldn't have been tied without the brilliant team work and resilience of the boys, and John Guinea. John scored 2 50m tries including one on the buzzer to give us an opportunity to win the game with the kick. Even though we didn't win, the most important thing that came out of the game was the camaraderie the boys showed, playing for one another and that's what Marist Rugby is all about.

Congratulations 6Bs!

6C

It was a tough game for the 6Cs as we had already lost a lot of players due to shuffling around and had a larger team to begin the game. However, with St Peter's only having 13 players Jalan and Teddy had to go out and play for Peter's showing great sportsmanship and humility as they did not complain so everyone would get a game of rugby.

First half was fairly dominant for Marist as we defended extremely well and our back plays and pod runs worked perfectly against Peter's. With some backs playing in the forward line and vice versa, the boys adapted well to making sure everyone got a relatively even amount of game time. The only try that was scored by Peters came from Jalan as he hammered through our defensive line to score

his first try of the season. Peter's barely made it into our forward 50 for the remainder of the game showing the boys improvements in their tackle tech and defensive structure.

Henry Trebbin was the man of a match, he played the first 3/4 of the game and showed excellent rucking and defensive chat, and most importantly when subbed off Henry, to make sure everyone got even game time, was one of the only boys not to beg to go back on he just asked politely if he was going back on showing great humility.

5A

A dominant performance from Marist 5A saw the boys come away with a comprehensive 67–0 victory over ATC. From the opening whistle, the team was switched on and played with great intensity and discipline across the park.

Defensively, the boys tackled strongly all game and gave ATC very little room to move. The work at the rucks was outstanding, creating quick ball and allowing the attack to flow freely. The passing game was sharp and accurate, with the team executing consistently well and showing the benefits of the hard work put in at training over recent weeks.

A special mention goes to Patrick Silec, who was named MVP after an outstanding performance. His ball running was powerful throughout the game, and he consistently created opportunities for those around him, serving his outside backs brilliantly.

Overall, it was a genuine team performance with every player contributing strongly to an excellent result.

5B

This was supposedly Villanova's B team, but it had a different coaching set up and players to the team we comprehensively beat in the trial two weeks ago. We started off poorly and were soon three tries down. We showed great resilience to come back, and we bossed the second half but could not convert our territory and possession into points. Harry Casey and Tyson Thomas shone in the forwards, whilst Henry Hart and Paddy Caughley were dynamic in the backs. Never great not playing the team you expect, but the boys toiled all match long.

5C

Marist 5C secured a hard-fought 29–5 victory over Marist 5D in an intense clash that tested both sides from start to finish. Despite the scoreboard, 5D applied relentless pressure throughout the match, forcing 5C to work for every point and keeping the contest competitive until the final whistle.

Leading the charge for 5C was man of the match Orlando Dodds, whose blistering full-field breaks and multiple tries proved the difference. His pace and determination ignited the side and gave 5C momentum whenever the game tightened.

The victory was also built on the extreme effort and commitment shown across the entire team, with strong defence, tireless support play, and resilience under pressure helping 5C maintain control. Marist 5D showed plenty of grit and determination throughout the match, making it a spirited contest and an excellent display of Marist Rugby from both teams.

5D

Marist 5D went down 29–5 against Marist 5C in a tough clash, with 5C controlling large periods of the match through strong defence and quick ball movement. Despite the result, 5D showed plenty of determination and kept competing until the final whistle, managing to cross for a late try after sustained pressure near the line. The game was played at a high intensity, with both teams throwing themselves into contact and battling hard around the breakdown.

The standout performer of the match, for the 5Ds, was Ollie Milton, who earned man of the match honours after a dominant all-round performance. Ollie made a huge impact with powerful carries, strong defensive efforts, and excellent support play that constantly put 5C on the front foot. His leadership and energy lifted his side throughout the game by helping create scoring opportunities.
