

## Covid Protocols

- Strictly a maximum of one additional person in the form of a parent or carer per participant may attend.
- Participants should arrive so as to allow the minimum amount of warm-up time for their activity.
- Parents or carers in attendance must adhere to 'Social Distancing' guidelines.
- Participants and their parent or carer must leave the venue immediately following their fixture.
- Please ensure all teams are aware of, and adhere to any specific protocols in place for the venue at which they are playing.
- Participants must have their own drink bottle and kit.
- Finally, this is an ever evolving landscape and as such it is upon everyone to be responsible about their own circumstances. If there is any aspect of a family's circumstances, eg: having visited a recently identified hotspot or any sign of flu like symptoms the morning of a fixture, then they should advise their School or Team Coach and not attend. The overarching rule is 'if in doubt, sit it out'.
