

BRAINways Education invites gifted and talented students of Brisbane West to take part in

# **DAYS OF EXCELLENCE: It's All Greek to Me: Back to Where Geometry Began**

Mathematics can sometimes appear to be just a set of rules that students learn off by heart and then apply in certain situations. This program will focus on *Geometry*, giving the students a deep understanding of the characteristics of its elements and the rules that govern them, and how these rules came about. Students will arrive at these rules by proving them, so they will never be forgotten. This program is designed to stretch gifted students beyond their comfort zone and to allow them to participate in activities with like-minded peers at a pace and depth commensurate with their learning capabilities.

Program developed and presented by BRAINways EDUCATION.

Program Dates:           May, 6<sup>th</sup> and 7<sup>th</sup>

Program Times:           9.30am - 2.30pm (please arrive 15 minutes early for registration)

Place:                       Annerley Hall at 8, Waldheim St, Annerley

Cost:                        \$186 per student

For enrolment and payment, please access:

<https://registration.brainways.com.au/semester1brisbanewest/>

Please ensure you bring with you, at the programs, the Nomination Letter you received from your school, as it will be required for registration. Please note that places are limited and they will fill on the first come, first served basis.

What to bring:            Drink (water only please), morning and afternoon tea, lunch, hat, notebook and pencil, smile

**It's All Greek to Me is a new program, developed and made available for the first time at the 2024 Brisbane west Days of Excellence**

BRAINways Education invites gifted and talented students of Brisbane West to take part in

# **DAYS OF EXCELLENCE: Creating Fictional Worlds: The Details that Matter**

Whether you're writing a book, a film script, or you create your own video game, the imagined world you build should still feel like a real world. This means it must function with its own set of rules. Figuring out these rules takes time and attention to detail, but they will ultimately establish the basic structure of your universe. So join us and unleash your creativity!
