

## School Refusal in Children-for Parents

Explore what school refusal is, and learn practical strategies to support your child who may be displaying school refusal behaviours.

Is your child reluctant to go to school? This workshop is for parents of children who display school refusal behaviours. This can include children who frequent the sick bay with a “stomach ache” right through to children who refuse to go to school at all.

By the end of this workshop you will have a better understanding of:

- The continuum of school refusal
- The impacts and functions of school refusal
- How to motivate your child
- The role of anxiety
- The importance of a whole school approach
- Strategies to support your child
