

GROWING IN FAITH TOGETHER

E A S T E R C R O S S C R A F T

You will need:

- 3 inch (or approx. 7.5cm) square sticky notes or paper cut into 3 inch squares
- A4 coloured paper
- Glue stick

NB: Construction paper is too thick for folding so use it only for the background.

What to do:

1. Fold the paper in half. Triangle fold with 3 inch paper square or sticky notes. If using post it notes fold with the sticky side on the inside.
2. Fold the paper to form a V by folding one corner of the folded top to the half way point and the same with the other corner.
3. Fold A4 background paper both horizontally into thirds and vertically in half. This gives you a lightly creased line to follow and place the folded paper.
4. In the centre, place 4 of the origami folded papers with the points touching to form a square. Starting point 4 pieces with triangle points touching on the creased intersection point.
5. Place other folded papers slightly inside the previous one working out in each direction to form a cross. Place 4 triangle folds in the middle with the tip of the triangles in line with the lightly creased lines.
