Magis: The Joy of Learning More!

Magis is the Latin word mean “more; to a greater extent,” and is one of the core principles of an Ignatian education. Magis is a call to strive for excellence; to make the most of our God-given talents; and to use them to serve others. It is a philosophy that guides our Magis students to push themselves further in all areas of College life – from their academic achievements, their commitment to extra-curricular activities, to their service and leadership within the College and wider community. **We congratulate our Semester 2 scholars on the successful competition of their Magis Elective Course.**
