

School to Adult Life Transition

Family Connect Forum Rockhampton

Delivering the NDIS in your community.

Supporting young people with disability transition from school to adult life

Carers Queensland is working with families and carers of young people aged 14 to 17 years old to identify potential barriers and challenges for young people transitioning from school to adult life, as well as the positive impacts that have supported students during this important life transition.

The Family Connect Forums will help you to:

- connect and learn from other families and carers;
- increase your knowledge about successful transitions from school to adult life; and
- feel empowered to set and achieve transition-related goals with your young person.

“The forum was a good opportunity to connect to other families, get information and ideas and ask for help.” – Chermerside Forum attendee
