

# Bring the world home!

***Their faces say it all: these international exchange students have successfully completed their programs and have returned home with a better understanding about Australian culture.***

All over Australia, volunteer families play a significant role in international relations, nowhere farther than under their own roof as they develop a deeper understanding of a different culture.

Volunteer families help promote the skills of sharing and compromise, and they gain satisfaction seeing an international “son” or “daughter” as well as their own children, develop maturity and perspectives while becoming more confident and tolerant of differences and diversity.

The international connections that are made, the maturities that are gained, including individual educational and future career goals and the desired language skills, all contribute to an indelible experience for the whole family.

Expose your family to different customs and ideas. Develop an international network for your whole family. Learn more about your favourite foreign culture. Share your daily life with sporty and talented international exchange students from countries such as France, Germany, Italy, Denmark, Norway, Finland, Sweden, Japan, Canada and the U.S.A.

Students aged 15 —17 arrive in early February. Volunteer host families may choose a student according to age, gender, program duration and who can match family hobbies and interests. Students are selected, covered by insurance, enrolled in schools by Southern Cross Cultural Exchange. S.C.C.E arranges travel and provides support to all of the program participants 24/7. Students and host families are also supported by an amazing network of Local Coordinators.
