

12.9.19 Amber

I feel frightened because of the fire's  
So this week we have been in drought  
for so long and fire's and it is sounding  
Gurra. People are talking on the radio  
about the fire.

I feel frightened because of the fire's  
and of the drought we might not have  
any more water by the sounds of  
it is so scary it might not be a  
happy ending.

I am kept safe at school because  
if we weren't safe we would  
catch a bus and go to a safe  
place.

What you can't do while we are  
in a drought have a BBQ have a  
fire in the backyard.
