## LEARN, CONNECT & PLAY SAFE ONLINE

For children today, growing up digital is a whole new world. Learning safe practices and strategies for maintaining a positive digital reputation starts in the home. It takes a village to raise a child, so understanding what your children are learning at school is crucial in ensuring the messages are consistent and ongoing.

This session aims at providing parents and guardians with the insights and important information about popular social networking platforms and the online world that young people today have access to. Building a positive and healthy family environment where digital use is encouraged but managed effectively can be a tough balance. We will discuss ways you can ensure your children stay safe through making use of an application's privacy settings and help them to build positive digital habits through your family's digital user agreement.

### WHAT YOU WILL LEARN

Living, learning, connecting and playing online safely

Social networking safety 101

Managing cyber bullying, help seeking strategies and resources

Making use of app and game settings to take control when things go wrong

Starting the chat about digital safety in the home

Establishing and maintaining a safe digital environment in the home

### PROUDLY PRESENTED BY:
