

For the upcoming Working Bee, we are aiming to lay out the new Veggie Patch and fill the Garden Beds with soil.

We will need to rake and level the area accordingly, and set the beds level. We can use some of the surrounding dirt to semi fill the beds.

SEEKING A PARENT WITH THIS SKILL SET- TO BUILD - Potting Bench

Chris Wende is seeking a Handy Parent that can either Weld or construct a Potting Bench on the day of the Working Bee. He would like to use the existing steel frames and exterior cladding, so should be pretty straight forward for a Tradie type. This can be done separately and brought in later if that helps? The frames are ready for pick up any day? Please reach out to **Chris directly on Mobile: 0411 075 723**

This is the plan for the new garden beds

Other Working Bee Jobs:

Load of Mulch to be delivered and spread along fence perimeter adjacent to Worthing Road, including around the Fairy Garden beds too.

Fairy Gardens:

Sectioning off areas with fencing to maintain but highlight them.

Other:

- General tidy up, sweep etc
- Light garden weeding where required
- Rake Playgrounds to smooth bark
- Cobweb removal of Library and that side of the school
- Sandpits sweeping
