

WORLD BOOK ONLINE

Just a little reminder about World Book Online - this is an awesome resource that can be used from Kinder right through to Year 6. There are thousands of information articles on almost any topic you can think of. Text can be read aloud for those children who need additional assistance, dictionary meanings can be found for any word simply by double clicking on it, the images and pictures are fabulous, there are timelines, games and puzzles, maps and atlases and more!

During Library lessons I worked with all students from Year 3 to Year 6 (so far) to teach them to use World Book Online - so if you ask the children they may be able to teach you something about it!

At the moment we also have access to ebooks. These eBooks allow you to have **unlimited simultaneous access**. The books also allow for highlighting of text, making notes and there are some with other interactive features such as links to articles with further information. There are also a number of pre-prepared activity sheets.

All staff and students have access to World Book Online.

I have included some links below.

Here is the link to World Book Online -
www.worldbookonline.com
