

Upper Juniors are still continuing with the theme under the sea. So far we have been looking at imaginary or fictional stories. This week looked at non-fiction stories. We looked at "Facts about the hermit crab" by Lisa Stratton. This term the school we are looking at is we are here to learn. We have been learning through play. Play is very important for our students to explore, investigate, put into practice what they learn. Through play students develop language, problem solving In play there isn't a right or wrong answer, this further develops their confidence and willingness to give it ago!

English—using props to retell the story!

Maths session—Addition

Learn to play - cooking and restaurants

Community access—having fun together!
