Homework Help Program

NOTE :

The Homework Help program is open to all students.

The 2015 Homework Help Program will begin on Wednesday 11th February and operate every Wednesday from 3:30pm-4:15pm in S31 and Maths Assistance will be available on Thursdays from 3:30pm-4:15pm in F11.

The Homework Help Program provides a quiet space for students to complete independent homework and assignment tasks or review work for tests and exams. Students are encouraged to do some personal reading if they have completed their homework. There is a teacher on duty in the room who is available to assist students with homework tasks, should they request a need for assistance.

It is expected that all students will respect the study environment of other students participating and it is expected that they will attend for the full 45 minutes. Homework Help is not a compulsory program but is available each week as a support for any students who feel they require extra homework assistance.

Students must register by completing a permission form and returning it to the Beacon

Regards

Sue Gabron

Learning Enhancement Centre Co-ordinator
