PRIMARY SCHOOL MODULES (1/3)

IN THE BIN

Students learn the appropriate and safe bin to place waste items in, and what happens to their waste depending on where it goes – to landfill, a recycling centre, or to be turned into compost. A transition to a circular economy is emphasised, including why it is important to divert waste from landfill. Optional add-on: School Waste Audit.

RECYCLING

Students explore what it means to recycle, which materials can be recycled, and how recycled items are created. With a focus on local services, students explore why reducing waste to landfill and transitioning to a circular economy is important.

LUNCHES

UNWRAPPED

Students recap the fate of their waste depending on where it goes – to a landfill, recycling centre or turned into compost. They localise this issue to their school grounds through the concept of low-waste “Nude Food” lunches, exploring ways to reduce food and other excess waste in their everyday lives.

School Holiday PROGRAM

15 - 26 April 2024

INFO & BOOKINGS

Photos may be taken at events. All participants will be required to sign a Media Consent Form.
