

After School Chinese Language Class @ Lyndhurst

TIME Magazine, Get Ahead, Learn MANDARIN calls Mandarin the world's "new second-language".

Over 60% of those surveyed pick "To be equipped for future opportunities" as the main reason why people learn Mandarin Chinese.

We believe learning Mandarin gives our kids a seat at the table of an increasingly competitive world.

We do Mandarin: see it, hear it, make it, speak it, play it, dance it, draw it, tell it, act it, feel it, smell it, laugh it, taste it, think it, read it, write it!
