

ROUND TABLE CONNECTIONS

VALUES PROGRAMS 2024

At Round Table Connections, we focus on developing opportunities for people to genuinely, authentically and safely connect. Using a Strengths Based Approach, we create space for students, staff and parents to understand and explore the importance of Values in Culture, Values in Action and what Healthy Masculinity is and how it impacts everyone. We share and listen to each other to help grow personally, and together for the betterment of the community.

2024 Programs

Values and Culture - These sessions support organisations in setting, or revising their Values and Culture statements. Initially working with leaders and committees to develop core Values in Action statements, David facilitates conversations to support the team to understand purpose and goals that develop;

- values statements and mission
- strategic planning
- positive feedback
- conversations within the organisation based around Values

Follow up sessions are available for the whole organisations, with ongoing support throughout the year also available.

Key Notes - Tailored presentations for staff, players, volunteers and supporters on what Healthy Conversations & Masculinity looks like and the importance of positive masculine traits. We discuss the impacts of stereotypes and media/social pressures and how we can best support our people. The sessions support people to understand the importance of Healthy Masculinity, and how to communicate more effectively with their colleagues, peers and others in their communities.

Key notes are also offered as part of the Values and Culture work.

All programs are tailored for your organisation's individual needs and requirements. I look forward to meeting with you and discussing the program or sessions you are interested in.
