Request : Vote on purchase of new BBQ

We would like to put forward a vote today to use some of the P&F funds to purchase a new stainless steel BBQ for the school.

There are normally 2 BBQs available and 1 had to be disposed of as it had rusted and deteriorated. We need 2 in order to cater for school events.

For Spring Fair, it cost the P&F \$280 to hire bbq and bae marie equipment, as well as the extra cost, time and effort for pick up and return of these and personal effort for administration of expenses.

Whilst a bunnings BBQ is \$350 it is not stainless steel, and we want to ensure quality and longer lasting product, and ensure it doesn't rust like the last one.

It makes financial sense to invest in a stainless-steel option. We are currently researching quotes but expect them to be priced higher than the Bunnings option.
