Teachers, Careers and Welfare Coordinators

Find out how you can support your students living in Out of Home Care (Foster, Kinship and Residential Care) to pursue post-secondary study.

There are lots of programs and supports to help them transition into TAFE or University, including financial, academic and personal.

It is important that we raise the educational expectations of students in care and support their aspirations. Your help is vital in assisting this disadvantaged group to have the opportunity to reach their potential.
