DRESS CODE

PURPOSE

We aim to prepare our students for the next step in their lives whether it be out on a work site or for further education. In doing so, our Dress Code has been designed around the workplace requirements.

As a member of the College community, it is important to have a sense of belonging and identity. The way in which we wear our uniform sets a tone and reflects a positive pride and professional approach to the wider community. It also allows staff to ensure safety and security of students in their care both on and off site.

PROCESS

The College has a Dress Code that has been selected by a working party of students and staff and is endorsed by the College Board. Students choosing to enrol at the College also choose to comply with this code. Parents will be notified of any changes to the uniform.

Harvey Ag College is like any workplace environment. A workplace is likely to have a high standard of dress for its employees and the same applies to our students. The College expects students to wear their uniform in a respectful and appropriate manner at all times. Shirts are to be tucked in, buttons done up, no rips, holes or tears, no writing on or excessive paint/grease and polished boots. Students must wear the approved uniform for their section.

Parents will be informed when their child's uniform is unsatisfactory and new items need to be purchased to maintain the high standard and image of the College community.
