

School Holiday Program Children's Creativity Workshop

A great opportunity for children to learn new skills, play and have fun.

Rosalie Cronin -Wholistic Services promotes quality family life including the fostering and nurturing of creativity in children. The week-long workshops are held in a relaxed artistic environment where other artists are at work.

The children learn new skills, foster new friendships, learn how to resource & recycle make creative projects, and most of all have fun.

Many of the projects are centered on other cultures, the creative activities inspired by a different cultural theme each day. Food and snacks are wholesome and nutritional.

Lunches are themed to match the culture of the day. The workshops ends with a exhibition where the parents and friends are invited to join in.

The workshops are aimed at 7-12 year olds.
