

METAMORPHOSIS

LCI Melbourne is launching Metamorphosis at Melbourne Fashion Week 2022.

We are transforming the Collins Place Gallery into a pop-up studio from October 10-16. Metamorphosis combines installation and interactivity to bring your students a program of events, including design studios, contemporary design discussions and presentations from our network.

We are offering you the opportunity to book your school group or class in for a free guided tour of the curated pop-up space with Todd Anthony.

Explore our Fashion & Costume Design students' concepts from research, to experimentation and design, with the final garments revealed alongside still and moving images captured by our Filmmaking & Photography students.
