CODECAMP

After-school Programs at South Melbourne Primary

At Code Camp, kids design, code, problem solve and become creators of technology. Our after-school programs are so much fun children don't realise they're learning important coding and creative skills. They explore STEAM concepts and get creative, developing games, movies, designing, or coding robots – in weekly after-school sessions!

Coding After-School

Mondays at 3:45pm - 5:00pm
5th February - 25th March

Students in Years 2-6 |Our coding program features weekly challenges, functions, algorithms, branching, variables, game logic, user experience and maths. A 6-week program with a new project each week, and the fun doesn't have to stop after class! Children will be provided with their very own Code Camp World account which they can use to continue creating at home and to share their projects with family and friends.
