VCE RESULTS & ATAR

Accessing VCE Results 2024

VCE study scores, ATAR and VTAC Scaled Study Scores will be available to students via the Results and ATAR website and the Results and ATAR app on **Thursday 12 December 2024 at 7.00am**. Students will receive a statement of VCE study scores from the VCAA, and those who applied for courses through VTAC this year and have paid their VTAC processing fees, will be sent an ATAR statement in the mail.

Students who wish to receive their results online, will need to register at [Results and ATAR](#) before results are released.

Registrations are already open, and students are encouraged to register soon.

Note: To register, students need their VCAA student number and will be requested to choose a secure password on registering.

Studying Rehabilitation Counselling at La Trobe

Help people recovering from injuries or living with mental health conditions or disabilities improve their quality of life. You'll build skills in counselling techniques, case management and vocational rehabilitation and support clients to achieve their personal, career and independent living goals.

Rehabilitation counselling is offered as a major in a few degrees including the [Bachelor of Health Sciences - rehabilitation counselling](#). This major is very popular amongst students studying degrees where having a better understanding of their clients would be an advantage.

La Trobe also offers a [Master of Counselling, Rehabilitation and Mental Health](#) at its city campus or online. This accredited course gives students the foundations for a rewarding career that supports others through huge life changes.

Students get hands-on experience and will graduate prepared to work in rehabilitation counselling, as well as broader counselling settings such as mental health and Employee Assistance Program (EAP) counselling.

Major in Bachelor of Business

Deakin University offers a *major - **Recruitment and Talent Acquisition*** – in its [Bachelor of Business](#) in response to industry demand.

Designed in consultation with industry (the Recruitment, Consulting and Staffing Association), graduates of this major will become qualified and sought after recruitment professionals. They will build their careers identifying and securing the talent that keeps organisations going.

Based in the discipline of Human Resource Management, a strength of Deakin Business School, this major develops a unique skill set for recruitment careers. It combines human resources foundations, recruitment technologies, brand management, employment relations and the specifics of talent acquisition.

Academic skills developed will be reinforced with work integrated learning – an Internship unit to explore suitable vocations, gain practical employment experience and develop professional work habits – and a business capstone unit.

Find out more by browsing [Recruitment and Talent Acquisition major](#).

Advanced Diploma of Building Design (Architectural)

Become familiar with optimal building design and its role in creating new residential, industrial and commercial buildings with the Advanced Diploma of Building Design (Architectural).

During this two-year course students learn how to produce quality construction plans in both 2D and 3D software, as well as developing business management, problem solving and computer-aided drafting skills.

Upon graduation, students receive a recognised accreditation by the Victorian Building Authority – the educational requirement to become a drafting practitioner. Graduates may work for building designers, draftspersons, builders, architects and other design professionals. Many students go on to study the [Bachelor of Design \(Architecture\)](#) and receive credit for some of the units they completed in the diploma.

Electronic and Computer Systems Engineering

RMIT offers the ***Bachelor of Engineering (Electronic and Computer Systems Engineering) (Honours)*** program which merges the electronic, computer systems and telecommunications engineering programs all into one.

Students are able to develop fundamental skills in each field and then choose to specialise in one or more areas based on their interests and career goals.

Graduate gain skills that enable them to find better solutions to challenges in the design, construction and maintenance of embedded systems, firmware development, electronic hardware, communication and network systems.

Browse [Electronic and Computer Systems Engineering](#) to find out more.

STEM Hub

[Stem Hub](#) a digital platform connecting students and industry. This hub is open to all university students and graduates from any universities who have studies *science, technology, engineering, and/or mathematics*. Students who sign up get access to leading industries and potential future employers.

Current senior students planning to study in one of these fields are encouraged to browse this link and flag this platform as a valuable resource once at university.

Snapshot of Holmesglen Institute in 2024

- Holmesglen was formed in 1982 and has grown into a very large TAFE provider.
- Holmesglen offers over 500 [courses](#) from seven [campuses](#) at six locations, including Chadstone, Moorabbin, Glen Waverley, and Eildon.
- Holmesglen has invested over \$25 million the last few years in building world-class facilities at the Moorabbin Campus. These include four large teaching wards, microbiology, and bioscience laboratories, two simulation suites, a community apartment, an allied health laboratory, lecture theatres, general teaching spaces, a co-operative learning centre, computer laboratories and teaching and administrative staff offices. The facilities have state-of-the-art equipment, reflective of industry standards.
- In 2017, Healthscope opened Australia's first TAFE-based hospital, the Holmesglen Private Hospital. The [Holmesglen Private Hospital](#) is located at the Holmesglen Institute's Moorabbin campus and provides clinical practice as well as teaching and research for nursing and allied health students.
- The [Learning Skills Centre](#) at Holmesglen is there to help students with their studies. This includes academic referencing, assignment support, note taking, presentation skills, report writing, research skills, study skills, summarising skills, time management.
- Holmesglen [partners and projects](#) with industry, are a hallmark of what Holmesglen offers, and covers all areas of its teaching and learning disciplines.
- Holmesglen offers [Free TAFE priority](#) courses.
