

TARNEIT
P-9 COLLEGE

Dear Parents and Carers,

Welcome back to Term 2, a new way of learning we would never have imagined ourselves undertaking at the beginning of the year. But here we are, and how proud I am of all our Year 2 and 3 students, families and teachers taking on this challenge, working together and creating a new normal, for now.

Whilst Remote Learning has its challenges, there is still a lot worth stopping to celebrate, such as:

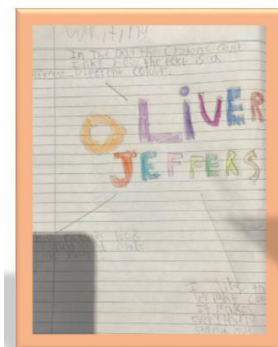

- Upskilling ourselves in our use of technology. I have seen examples of this in our Google Classrooms! Our students are accessing videos and documents, and uploading pictures of their own learning.
- Our students are becoming self-sufficient learners, managing their learning schedule each day and asking questions to their teacher via Google Classroom.

I'd like to ask our Year 2 and 3 families to spend time talking with their children about our school value Pride. Here are some questions you might ask them:

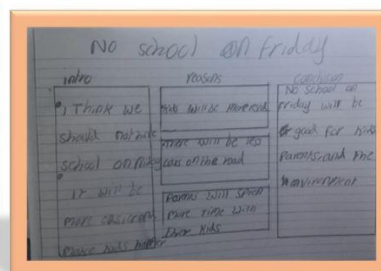

- What does the school value Pride mean?
- What might Pride look like in your learning tasks?
- Can you show me an example of work you have taken pride in completing? Ask them to explain why they chose this piece.
- How can you make sure you are taking pride in your work whilst learning is remote?

Here are some examples of our Year 2 and 3 students work they have been completing at home and turning in via Google Classroom:

Well done to everyone on a fantastic start to Remote Learning.

The Arts –

Here are some examples of how our students engaging in the Arts whilst working remotely.

- Year 6 students have been exploring the world of dragon art. They have been practising drawing features of dragons from across many cultures.
