

ALBANY TUTORING

Helping your child reach their potential

About Us

We are staffed exclusively by practicing and pre-service teachers.

How We Teach

- All tutoring follows the WA Curriculum and judging standards exactly. We always teach in line with the classroom teaching.
- We pride ourselves on being flexible to the student's needs and can produce a tailored tutoring solution.
- Albany Tutoring provides an individual learning success plan prepared by a qualified teacher. Every term, your Teacher will consult with you and the child to ensure tutoring is as efficient as possible.

The Teachers

We Have the Best Teacher

The Teachers are experts at bringing out the natural curiosity in students through gentle inquiry with open questioning. We have taught the subjects in the classroom and tutored them for several years.

The Teachers use a diverse range of teaching techniques to make the lessons interesting, meaningful and fun!

The Values

- Critical Thought
- Independence
- Resilience

ALBANY TUTORING

Services

Albany Tutoring provides a range of tutoring options to suit every learning need including:

- Small Group
- Private, one-on-one
- Online
- Special Mastermind Workshops

Small Group Tutoring

Many kids thrive when working in groups, learning team and social skills, and the academic subject. Group tutoring is the best option when parents want top-up tutoring in a subject or the child is disengaged from learning. The teachers work in groups of up to 4 students and deliver a differentiated lesson to each child's ability.

Private One-on-One Tutoring

1 hour tutoring in any subject taught in line with the classroom teacher and the WA Curriculum. We can even work with sibling combinations at the same time across years and subjects!

Online Tutoring

Tutoring is conducted in the comfort of your home. It is based on the learning programs we have implemented at several schools as the classroom teacher.

Special Mastermind Workshops

Albany Tutoring has designed workshops to teach your child specific skills not in the school curriculum. We pride ourselves on tutoring skills that prepare students for a rapidly evolving and increasingly complex Australian society to make them job ready.
