

# HELLO CITY OF MARIBYRNONG

Geelong's innovative skill-development provider has  
now joined your community too

*Geronimo OT* provide capacity-building supports for young people with additional needs – supporting them to live more independently and be able to take advantage of more opportunities into their adulthood.

We have a team of Occupational Therapists and Skill-Development Workers who assess a young person's skills, and develop programs they can follow to achieve their goals.

In the past we have supported young people to be more independent around the home, use public transport, self-care skills, better understand emotions and sensory input.

**Geronimo OT is the link between where you are, and where you want to be. We provide Occupational Therapy, Support Coordination, and Skill-Development Supports**

**Briony Grant**  
Your local Occupational Therapist
