Authors and Blue Mountains bushwalking experts, the Bush Explorers, take us on a journey to learn about the history of Narrow Neck, Katoomba and bushwalking in this iconic part of the Blue Mountains.

Their new book is a definitive and comprehensive story of the region, expanding the sold-out 2008 version. It provides a deeper insight into Narrow Neck's fascinating past, its scenic beauty, negotiating its many passes, and the pivotal role of the area in the development of bushwalking in NSW.

This book and talk is for the lovers of the Blue Mountains, a tool to learn the early history of the region and an essential aid in the planning of any walks in and around the Narrow Neck.

Opening Hours & Contact Information for ALL BRANCHES can be found on our [Library website](#)

Returns chutes are open 24/7 at all branches. Library items (only) can now be returned at any time.
