

Little Eagle Campsite year 6/7 2015

In week 1 Term 2 Fisher 15 and 14 travelled to Little Eagle Campsite on Hindmarsh Island. At first look of the campsite I wasn't sure what to expect but when we left, it turned out to be one of the best. The activities on the camp were excellent and very entertaining. Some of the activities gave students the experiences that they might not get a chance to do. The fishing was especially a great experience because it was awesome to fish on the Murray River. Raft building was also an experience that I have never done before, even though I didn't get to sail my team's raft because I broke my thumb the day before camp, but building it together with my team was still pretty good. I definitely rate this camp highly.
