MONDAY 06 OCTOBER #33

BEHIND THE JOB: Molecular Biologist

What are their strengths?

- Research and analytical skills
- Problem-solving and critical thinking abilities
- Attention to detail and laboratory skills
- Ability to interpret and present scientific data

What do they do?

Molecular Biologists study the structure and function of cells, genes, and proteins to understand biological processes and develop medical and biotechnological applications.

How do they get started?

A Bachelor's degree in Molecular Biology, Biotechnology, or Biomedical Science is typically required.

Next steps
