

# Cheetahs!

# Introduction

Hello my name is Woody and I will be telling you all about cheetahs!

# What cheetahs look like!

Cheetahs have skin coloured fur and black spots over their bodies, they also are medium-sized spotted cats with long legs, and also have a stripe like a tear. They are also similar looking to leopards.

# How fast do cheetahs run?

Cheetahs can run 100-160km/h they can also run as fast as a car they are also one of the worlds fastest animals and are 1st top fastest animals.

# What do cheetahs eat?

Cheetahs mainly eat gazelles but also antelopes and they eat animals when they come in their way. They eat lots of food they find during hunting this means it is dangerous for humans to go next to a cheetah.

# Where do cheetahs live?

Cheetahs mainly live in the grasslands of savannah Africa, there are lots more in different countries such as Iran.

# Conclusion

Thank you for listening to all the facts about cheetahs I hope you enjoyed my presentation (information report).

THANK YOU FOR LISTENING!
