Thursday 8 June 2023

FOCUS ON OPEN DAYS

If you are considering studying at TAFE or university after school, it's crucial that you attend Open Days.

Throughout the year, vocational and tertiary institutions open their doors to the public and showcase their courses, accommodation, scholarships, pathway courses, student services and their 'point of difference'.

At an Open Day, you will be able to:

Get a feel for the culture of the campus

Learn about courses and career options

Undertake campus and accommodation tours led by current students

Speak directly to student ambassadors and lecturers about the courses or careers you are interested in

Compare the course area you are interested in at different institutions

Learn about sports and societies you can join and be active in

Get course counselling and guidance

Attend information sessions and workshops

Watch live demonstrations

Listen to bands, eat lots of food, participate in activities and have fun!

Don't just pick a course at an institution without visiting the campus – you potentially will be spending several years studying there and spending tens of thousands of dollars on your course and accommodation. It's worth making the effort.

Now is the perfect time to identify institutions you would like to visit, record their open day dates on a calendar, register for the event, and complete a personalised planner on the website. If you have time, try and attend information sessions on topics like pathways, scholarships, accommodation and overseas exchange programs.

OPEN DAY PERSPECTIVES

Parent perspective

Written by Shona, parent of Charlotte.

I attended the 2022 Swinburne University Open Day with Charlotte. The day was exciting and informative. We learnt about the course Charlotte was interested in and the different pathways she could take in her tertiary education. Charlotte also had an opportunity to speak directly to the lecturers and current students studying the course.

For me, I loved the reassurance of taking a tour of the campus to learn about the residential accommodation options, student benefits including onsite medical and health services, campus security, parking/transport, and student support services. Getting to chat directly to current students that have come from regional areas was also a plus.

The whole experience was really beneficial, and it was reassuring as a parent to be there in person. I am really excited for Charlotte and what Uni life has to offer her.

Student perspective

Written by Charlotte

I started off by going to a talk about the course I was interested in learnt about potential majors. The talk included how the course is structured and possible career paths that students can take. I was able to meet my future lecturers and department leaders.

I also went to the pop-up stall for my course and was able to speak to current students and ask questions. There were activities, free food, and information stalls everywhere, with incredibly kind and welcoming people to answer all your questions.

However, the best thing I got out of going to an open day was the ability to see what Swinburne is all about. I got to tour the campus and student accommodation and see which apartment style would be the best fit for me next year.

Going to an open day not only gave me the answers to many of the questions I had about living on campus and uni life, but also gave me peace of mind that I was choosing the best course and university for me.

OPEN DAYS CONT...

Suggested questions

If you are unsure what to ask on the day, Victoria University has developed some questions you can ask:

Are there any prerequisite subjects I need to study for this course?

What study scores/ATAR do I need to achieve to get into this course?

Do I need to attend an audition, have an interview, or present a folio as part of the selection process?

Are there any other ways into this course other than through a VTAC application?

If I can't get into this course, is there a similar course at this institution I can apply for?

Can I study majors and/or minors in this course?

How many hours per week are spent in class and can I study part time?

Can I defer the course?

What kind of jobs do graduates of this course generally get?

Are there any scholarships available?

YEAR 12 STUDENTS

EMPLOYMENT

Australian Border Force

Year 12 graduates have the opportunity to apply for the Border Force Officer Recruit Training (BFORT) program. This 12-month program prepares you for a role in the Australian Border Force.

During your initial 12-month training course, you will be paid \$54,439.00 (plus 15.4% superannuation). When you successfully complete the training course, you will become an APS3 General Duties Border Force Officer.

You will play a vital role in protecting our borders. Bookmark this webpage to check for upcoming application dates, <https://bit.ly/3IZTISX>

PwC Higher Apprenticeship program:

If you don't want to go university but want to receive professional training to set you up in the technology industry, join our Higher Apprenticeship Program. And the best part of being PwC Higher Apprentice? You'll get to earn an income while learning new skills and earning two technology qualifications! Applications open soon, <https://careernews.click/techtraineeship>

GAP YEAR PROGRAMS

Department of Home Affairs

Spend an exciting 12 months, where you'll not only get paid to carry out meaningful and important work that improves the lives of all Australians but also gain life-changing skills.

The Department of Home Affairs offers challenging and diverse employment in roles impacting many parts of Australian life – emergency management, trade and travel, national security, immigration, settlement services, citizenship and border security.

Successful applicants will be offered a 12-month contract at the Australian Public Service. Full time salary at commencement will be \$54,439 per annum plus 15.4% superannuation contribution.

You'll have the opportunity at the end of the program to continue with Home Affairs through a part time APS3 internship program while completing tertiary studies. Positions will be located at various national offices across Australia.

Applications close Sunday 2 July, www.homeaffairs.gov.au/

Digital Traineeship Program

Year 12 students can apply for the Australian Public Service Digital Traineeship Program. Applications are now open for the 2024 intake, <https://bit.ly/3MUmtgV>

Ag Career Start

This is gap year program on a farm. You will live in a regional location, earn a salary, achieve a nationally recognised qualification, and build life-long industry connections. Applications are now open for the 2024 intake, <https://agcareerstart.com.au/>

Australian Defence Force

Current Year 12 students can apply for a 12-month position in the Air Force, Army, or Navy to begin in 2024. There are 18 roles on offer, including military police, airbase security, electronics engineer, chef, administration assistant, and maritime warfare officer. To explore options and start your application, visit www.defencejobs.gov.au

EARLY ENTRY PROGRAMS

Early entry programs enable universities to make course offers to Year 12 students based on factors other than just the ATAR. You can apply for as many early entry programs as you like. Year 12 students are encouraged to map out the best early entry programs to apply for based on their course interests. Early entry applications are open for the following universities:

VICTORIA

Swinburne University
RMIT University
La Trobe University
Federation University
Victoria University
CQUUniversity
SAE Creative Media Institute

NSW

University of New England
Charles Sturt University
Southern Cross University
CQUUniversity
SAE Creative Media Institute

Download early entry guides via <https://slmcareerresources.edublogs.org/>

YEAR 12 STUDENTS

COMPULSORY UNIVERSITY ENTRY TESTS

Law at the University of NSW (UNSW)

Students planning to apply for undergraduate law courses at UNSW will need to sit the Law Admissions Test (LAT). The test will be held on Thursday 28 September and results are valid for 2 years. Registrations for the test close Friday 11 August, <https://careernews.click/unswlat>

Initial teacher education - Victoria

Students planning to apply for initial teacher education courses in Victoria for the 2024 intake are required to sit the Casper test. Casper is an online, open-response situational judgment test (SJT). It asks what you would do in a tough situation, and more importantly, why. This helps determine behavioural tendencies of applicants pursuing people-centred professions.

Students will be required to take the following test: CSP 10409 – Australian Undergraduate Teacher Education. During the registration process, you will select the universities you would like your results sent to. Register for the test via <https://acuityinsights.app/casper/>

MEDICINE & DENTISTRY

By now, Year 12 students applying for medicine and/or dentistry courses that require the UCAT ANZ should have completed the registration and booked a test date. For information on the application process and key dates for Victorian, NSW and ACT courses, please download resources via <https://slmcareerresources.edublogs.org/>

AUSTRALIAN DEFENCE FORCE ACADEMY (ADFA)

Students planning to apply for ADFA are encouraged to start planning as soon as possible. There is a dual application process and applicants will need to be mindful of key dates. Read through the 'how to apply' section on the ADFA website and record key dates and tasks. The process will take several months, <https://careernews.click/adfa>

YEAR 11 & 12 STUDENTS

BUSINESS EXPLORER PROGRAM

Monash University is running a free business explorer program for students who are keen to explore course and career options in business. The next event will run in September at the Clayton campus. You will choose to participate in 3 hands-on sessions from the following course areas:

- Accounting
- Banking and finance
- Analytics, stats, and actuarial studies
- Economics
- Management
- Marketing
- Entrepreneurship

You can register your interest in attending the September event via www.monash.edu/business/business-explorer

MELBOURNE UNIVERSITY

Year 11 and 12 students are invited to experience a taste of university life by joining us at our Parkville campus for A Day at Melbourne on 28 June.

Throughout the day you'll have the chance to take part in two areas of study workshops of your choosing, sit in on a panel of current students to hear about their experiences, speak to staff one-on-one about your study interests, discover our broad range of student clubs and societies, and participate in student accommodation tours.

Places are strictly limited and will fill quickly—please register via <https://bit.ly/45NRKcz>

YEAR 11 STUDENTS

2024 NATIONAL YOUTH SCIENCE FORUM (NYSF)

Love STEM? Want to engage in a life changing experience? You should consider applying for the NYSF. This is a two-week on-site and digital program where students are immersed in hands-on science activities, lab experiments, field trips and meet researchers who are leaders in their field. The program will be held during January 2024. Applications close Friday 1 July. For more information and to apply, go to www.nysf.edu.au

YEAR 9 & 10 STUDENTS

THE SANTOS SCIENCE EXPERIENCE

The Santos Science Experience is a fun program of science activities. Each program is designed to provide students who have an interest in science with an opportunity to engage in a wide range of fascinating science activities under the guidance of scientists who love their work. The next Victorian program will be held at Swinburne University on 10 – 11 August. There are 13 places left. Book your place via www.scienceexperience.com.au

CAMP SEEK

Camp Seek is a STEM focussed learning and immersion program for Year 9 and 10 girls and non-binary young people (aged 14 – 16 years) taking place during the September school holidays. Participants will spend four days at SEEK HQ in Melbourne.

Participants will learn from subject matter experts about their career journeys in tech, develop their coding, learn about real-world problem solving and put it all to use in a Create-a-Thon project with fellow Camp SEEKers. For information and to register your place, visit www.seek.com.au/camp-seek

ALL STUDENTS

STUDY SKILLS AND RESOURCES

Lisa Tran has developed a series of free resources and study guides for high school students. While many of the resources are targeted to Victorian students, all students will benefit, <https://bit.ly/227DGng>

CHOOSING STEM ELECTIVES

Careers with STEM has written an article looking at the 10 most popular university courses (NSW) for the 2023 intake and what STEM electives they need. This is a fascinating look at how STEM subjects can prepare you for courses in study areas such as medicine, arts, computer science, and business. Read the article via <https://bit.ly/43sUJWk>

ALL STUDENTS

DENTAL SCIENCE

Are you interested in health and science? Have you thought about dentistry but not sure you want to study to become a surgeon? You may be interested in exploring the following occupations:

Dental Nurse/Assistant

Assists the dental team, supports patients, sterilises equipment, prepares dental materials, maintains client records etc.

Dental Hygienist

Educates patients about prevention of disease, treats oral diseases, and provides dental treatments.

Dental Therapist

Examines and treats diseases of the teeth in children and adolescents under the supervision of dentists.

Dental Technician

Designs and constructs dentures, crowns, impression trays, oral splints etc.

For information on these career areas, go to the Australian Dental Association- www.ada.org.au

Download a course guide on dentistry and oral health, <https://slmcareerresources.edublogs.org/>

INTERESTED IN PSYCHOLOGY?

Would you like to become a psychologist?

You will need to start your education by studying a 3-year bachelor's degree or a 4-year integrated bachelor's and honours program with an Australian Psychology Accreditation Council (APAC) approved major in psychology, <https://psychologycouncil.org.au/>

Cool facts about psychology

It takes at least 6-years to become a generalist psychologist and another 2 – 4 years to become a specialist.

You can study a psychology major within a degree that is focused on your interests – such as health, humanities, science, business etc.

In some degrees you can study a second specialisation. Examples of study areas include criminology, disability studies, marketing, neuroscience, health promotion, nutrition etc.

There is maths in psychology degrees such as statistics and correlation! It's highly advisable to study senior level maths at school.

If you don't want to become a psychologist, you can complete an undergraduate degree with a psychology major and then complete graduate studies in an area that's focussed on human behaviour – such as social work, career development/counselling, marketing, human resource management, criminology etc.

Specialist psychology fields

Once you complete your 6-years of study and training and have registered as a generalist psychologist, you can pursue training in an area of psychological practice, such as:

- Clinical neuropsychology
- Clinical psychology
- Community psychology
- Counselling psychology
- Educational and developmental psychology
- Forensic psychology
- Health psychology
- Organisational psychology
- Sport and exercise psychology

Careers in psychology

Deakin University has developed an excellent website showcasing different careers in Psychology, <https://psychologycareers.org.au/>

Research psychology courses

The pathway to becoming a psychologist is complex and it's important to be aware of the grades and hurdles required to move between each stage. Please see your career adviser to map out the best courses for you. You can research courses via www.courseseeker.edu.au

UPCOMING CAREER EVENTS

One of the best ways to develop ideas for occupations and courses is to participate in career events. Check the Career Newsletter for upcoming events and join social media accounts for any higher education provider or training institute you are currently interested in to ensure you are up to date with events.

BOX HILL INSTITUTE

Box Hill offers vocational and higher education courses and has several Victorian campuses. The Institute is running 'Talk and Tours' for prospective students on the following dates in June:

- 13: Elgar and Nelson campuses
- 14: Lilydale campus

Register via <https://info.boxhill.edu.au/>

HOLMESGLEN INSTITUTE

Holmesglen offers vocational and higher education courses and has campuses at Chadstone, Moorabbin, and Drummond Street. The Institute is running an open day for prospective students and their families on Thursday 15 June. Register via <https://holmesglen.edu.au/>
