TECHNOLOGY

KIOSC

KIOSC, in partnership with Knox Secondary Schools, is providing a FREE program for Primary Enrichment Students. Students are selected from their Primary School to participate in the afterschool deep learning and immersive program.

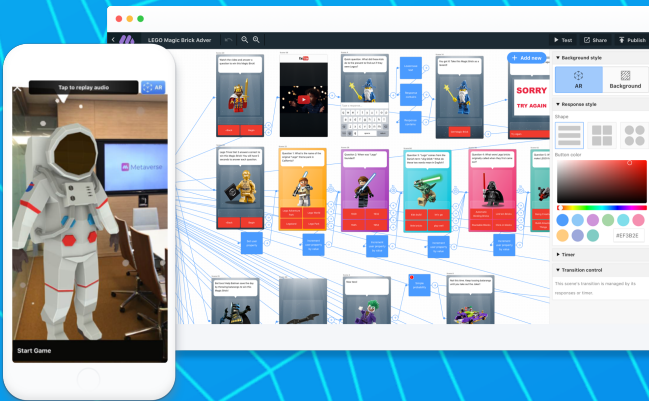

Robotics

Learners will create code with the LEGO Mindstorm robots. In addition, students will engineer sensor attachments and complete sets of challenges for their robots to complete.

Fractured Fairy Tales

Learners will storyboard a traditional fairy tale to create an augmented reality 'choose your own adventure'. Working within the design studio of Metaverse they will code and connect elements to engage the end user experience.

**4 X 1.5 hour Sessions on Thursdays
Week 5, 6, 7 and 9 of Term 3
4.15pm-5.45pm**
