
How to Fold Vegetable Gyoza

Source: <https://www.justonecookbook.com/how-to-wrap-gyoza/>

Pleats toward One Side

Fold the wrapper in half over the filling. Using your left thumb and index finger, start making a pleat about once every ½ cm on the top part of the wrapper from the right toward the left.

2. Once you make each pleat, press it down with your right thumb and move toward the left.
3. Continue all the way until there is no more top wrapper to pleat left.

Press the pleats and shape the gyoza.
