

Kindergarten at Haven Early Learning

At Haven Early Learning, our Kindergarten Programs, teachers and curriculums are designed to set foundations for children's learning and development for lifelong success. Our genuine, kind and engaging relationships, alongside our professional teaching teams, are committed to delivering 2 years of the highest quality kindergarten programs.

Two Years is better at Haven

Our Kindergarten programs work in a collaborative partnership across the 2 years of Kinder to positively benefit, scaffold and challenge children's learning and development.

Our 3-year-old and 4-year-old Kindergarten programs are structured to optimise each child's individual learning journey and provide them with vital skills and knowledge for future education.

Between the ages of three and five, research shows that children experience a critical period in their development and learning. Haven's high-quality play-based programs promote the development of literacy, numeracy, emotional regulation, social, language and play skills.

What we offer

- Access to more than 15 hours of quality Kindergarten (children can attend 52 weeks per year)
- Two year pathway program
- Haven Kinder packs (bag, shirt, drink bottle and more)
- Kindergarten that is seamlessly integrated into a long day care setting.
- Wide of variety of excursions
- End of year excursion (3 & 4-year-olds) & Graduation Event (4-year-olds)
- Partnerships with local primary schools
- Parent teacher interviews, with ongoing family communication across the year
- Mid & End of year reports
- Online learning platform showcasing learning and development.
- Kinder photos, end of year keep sake and portfolio of learning

Educational Curriculums

Our highly experienced Kindergarten teachers are intentional in their curriculum planning and teaching practices, with the Kinder routines structured to be child centered and target building knowledge in:

- Phonological awareness and articulation
- Emotional regulation and resilience
- Numeracy and literacy
- Social skills and collaboration
- Concentration and attention
- Fine and gross motor development
- Language development (ELLA Program)
- Identity, self-help and independence
- Building on new ideas, concepts, knowledge and skills

Family Reviews

“ If you are on the fence about where to enrol your child, I have no hesitation in recommending the Haven Kindergarten programs, they were an amazing experience for our family.

“ The teachers are laser focused on curriculums, the emotional and social wellbeing of children, with the programs aligning with evidence backed research for what 3- & 4-year-olds really need.

“ My child is taught holistically and in engaging and creative ways. Kinder is helping her to safely navigate 3-year-old challenges beyond what we imagined. It has been wonderful and unnerving as we watch her grow.

“ The children in the 4-year-old Kindergarten room have had a multitude of extra learning experiences offered to them, helping children to understand the world in which they live.

“ Upon starting primary school, the foundation teacher made comments about how impressed they were by how much my daughter had already covered in Kindergarten. To this day we believe the strong start at primary school was because of the skills Haven helped her to develop”

“ The kindergarten room is a place of engagement, routine, positive learning and development. The way in which the children build friendships and play is a true testament of wonderful culture where children feel motivated and safe to learn. I highly recommend Haven over any sessional council program.
