HUNDREDS OF YEARS OF OOPS...THAT DID NOT WORK OUT VERY WELL...DESTRUCTIVE BYPRODUCT AT ANY COST...OOPS...

All should now care....Many changes required in daily human life to bring real perpetuity for innocent wild and children...

NO HOPE? Just indulgent sacrifice and remedial action...IS IT TO LATE?

U.C. CROSSLIGHT MAGAZINE ..Quote..We thought as a congregation...Time to step up....From an environmental perspective, we face a very daunting prospect. THE ESCALATION OF THE CRISIS IS QUITE ASTONISHING.....We have to apologise for damage to Gods country.....

"THE WILD AND WILD HABITAT ARE MY PETS...
THEY HELP ME LIVE AS NATURE INTENDED...
I WILL DEFEND THEM WITH MY LIFE...
THEY ALSO DEPEND ON ME" ...

LIFE: Current status in brief...

QUOTES.....

U.C. CROSSLIGHT MAGAZINE...."Any hope for arresting the enormous impacts of climate change will lie with our younger generations"

"You know , it's very complex and the reality is that emissions are not reducing and we are being forced to adapt to a very rapid decline of the state of nature..."

"Those affected most are low lying Pacific Island countries or those like Bangladesh which are financially impoverished and are feeling the weight of the negative impacts of climate change...Facing the real prospect of eventually much of or all their countries becoming uninhabitable...and not having access to fresh, clean water due to rising sea levels. These people have not created the problem.".....

"We have to be optimistic and, as Christians, we should be at the forefront of the fight"...

"In the last 5 years we have been living with the consequences of climate change"....

QUOTES..FROM BRIAN CARTER..

BE FOR EVERGREEN..NEWSPAPER ARTICLE 30.5.90..

Quote from..."Deciduous trees and plants provide their photosynthesis, taking in carbon dioxide and giving out oxygen for only ...at best..6 months of the year.....If evergreens...natives... which provide improved oxygen quality of the air for 12 months of the year are removed it will clearly reduce the oxygen quality in the area....".."See google "Pioneer urban forest Brian A Carter".....nature trail...1974..78..Some one will sue on behalf of the earth soon...now please.

"BUSH IS TAKING OVER THE SOUTH",AUG 1975..Age article....

"Whatever the outcome of the debate, South Melbourne is firmly launched on its native tree planting programme, restoring the balance, as Mr Carter puts it bringing back to the area native birds, predatory insects and spiders and they believe, a more natural and symbiotic beauty.. In the next five years, they will put in 50 000 plants...We are moving.....parts of.... Frankston up to South Melbourne"

BOOK.."Let the earth live" the farmers responsibility to the earth....1981...Author..Verne McLaren...Published Squatter publications...Brian Carter.. Publishers preface..

"In June 1980, Mr Verne McLaren addressed delegates at the world wilderness conference in Cairns..Queensland Australia. On hearing Mr McLaren's paper, Squatter publications felt that all efforts must be made to have his experiences published. With the presentation of this book, the publisher believes a practical contribution has been made to the continuity and spread of sensitive and thoughtful farm management.

Mr McLaren practices what he preaches and this is seen in the results of his productive farm of 2400 hectares and his respect for all things living, as well as items of historical significance...The publisher urges all people of the land to read this book for their own education..." Brian A Carter...

THIS BOOK HAD STRONG INFLUENCE ON FARM PRACTICES FOR AT THAT TIME SOUTH AUSTRALIA WAS EXPECTED TO BE DESERTIFIED WITHIN 20 YEARS FROM THE THEN DEGRADING PRACTICES.....

"THE MODERN ECOSYSTEM" ...BOOK 1989...EXCERP FROM INTRODUCTION..Brian A Carter Author...

"Opportunities presents itself out of awareness, observation and education.Opportunity is always there, the observers are often distracted or just cannot or do not wish to see.

Catastrophe can come upon us with great surprise and drama or it can be forecast. The opportunity to prevent forecast catastrophe are often overlooked.

It is only ignorance, greed or blind parochial arrogance that leads to catastrophe, and usually finds all blaming the previous generation or others.

This book sets out to offer practical and philosophical opportunity to the present generation...34 years ago....

The book addresses opportunity..It speaks to people who listen and observe and have not lost their sense of imagination and perspective and do not accept stupidity in the name of truth.....
