The Dangers of a Noisy Classroom

Richard Gallbreith

On Thursday August 25th, Richard Gallbreith is visiting Violet Street.

He is coming to teach us to draw cartoons. He is funny. Although we repeated some of the same cartoons from last year. My pencil kept breaking and I was nervous, but I had a go.

Every five days nearly every classroom in Violet street is a noisy one, the reason why is because of these naughty children that don't listen to instructions.

But to get every answer I'll be asking 4 classrooms today. And in Bendigo reporting live is Russell Barham." Hello folks as you guys heard I will be reporting today".

First class today is 4/5 F/P. Ely says, "When students get loud they get distracted" amazing news from Ely.

Next I will be asking grade 6, most of the students say Ms Condon just tells them off. Next will be Ms k's class, Gypsy commented "That noisy classrooms give you a headache".

After Gypsy will be Raff, he stated "That when someone starts talking they talk over them.

And lastly will be 1/2 D, Cora says "It hurts your ears". Last comment will be from Lachie, "Ms Douglas tells us of when it is noisy".

Watch out for tornados! What is a tornado?

A photograph of a forming tornado

A tornado is a rotating funnel-shaped cloud that extends from a thunderstorm to the ground with whirling winds that can reach 300mph.

Tornadoes can damage anything coming in their way like houses, shops and people. Tornadoes can make floods, lightning, rain and more.

Tornadoes can happen anywhere in the world.

How to stay safe:

If a tornado happens, go to your basement or stay away from it. Take a food kit and a walkie talkie.

Deadly tornadoes:

The deadliest tornado happened in US which means United States. It was the tri-state tornado on March 18, 1925 in Missouri, Illinois and Indiana. It killed 695 people and injured over 2,000 people.

People say, „In the eye of the tornado, there is not more high and low, no floor and sky.”

Anime

Anime can be a book, movie and a show. Anime can also have bad ideas but some are good and funny. Like my hero, One Piece, Demon Slayer and Naruto. Those are the anime's I have watched but they are also funny. I know some of the main character like Izuku, Luffy and Naruto. Deku is from my hero, Luffy is from One Piece and Naruto is from Naruto. Here is a fun fact about Anime, Anima is sometimes rated MA18 plus. While some Anime's are PG and PG13.

Make sure to check the rating before watching!

Contemporary Ballet lovers

Recently a ballet company has come to our school. They performed Pommy and Gobba, a traditional dreamtime story. So many students liked it!! And a few teachers were inspired, they were so polite.

How Social Media Affects our Lives

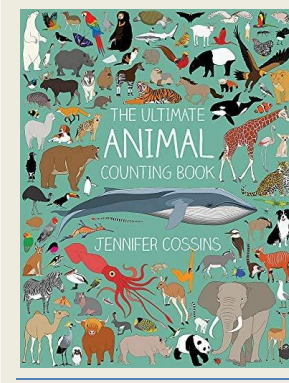

Over the last few years something has become very popular, it's called social media. Social media is a sort of website where you can post photos and videos. So, sounds pretty cool doesn't it BUT there are dangers! *The dangers of social media...*

"As much as it can be fun there are lots of dangers such as inappropriate use of language and online bullying." Alistair commented. Another problem is that many people are aware of these factors but don't care. This build-up of bad exposure worsens people's mood. It can make you sad, angry or anxious. Some people don't know these two things are connected. *Conclusion?* So let's say social media isn't so bad, you just need to be careful with how you use it.

Why Down Ball is Fun

Down ball is a competitive game, where two to four players play in the four squared made by recycled tyres! Each square represents someone like King, Queen, Joker and Dungeon and there must be a bouncy ball or you can't play the game.

There are also rules for playing the game that evolve multiple people to trust and know the rules these are some of them

- The ball must bounce in your square once or you are out!
- You can't roll the ball or you are also out.

Here are some comments on down-ball. Jasmeet said "I love down-ball for its competitive game play and I play it every day!". Alistair also said "I enjoy it so much, I play it most the time."

Alexis Rowles

Hawks vs Lions

The match was great, the Hawks scored 90 points and the Lions scored a whopping 62 points. There both off who knows the lions might have a comeback? Maybe, I have no idea! But all I know is that one of them are going to win. But mostly I'm rooting for Hawks but they are both very close. There's a pretty sunny day so that means that they both have a big chance. There are all players on the field today, they will be doing full time but that's all for today.

Down Ball

There was a tragic incident yesterday morning...

Jadah, Theo, Alexis and myself (the reporter, Destiny) were playing down ball and Alexis had just got Jadah out and the ball had just rolled out of the court then round to the one next to us. The only reason it rolled was because Jadah had missed the ball, not surprising! Julian had thrown the ball back to us. But he didn't give it to us. He had thrown it to Alexis.

And oh no... it hit Alexis in the head! Just saying to clear things...

Julian is guilty. Some people think that Alexis will get revenge one day.

And not only throw one ball at him, but 100!! Mess with the ball, you get down... When confirming with Alexis however, she stated, "I am a nice person, so I won't".

Let's hope there is no more drama on the court!

Blue and Beta

Blue has always been leader of her pack. But they have now died.

Now she is trying to protect her child Beta. Making sure she doesn't die.

In the end of the movie Owen gets out of his van and opens the back van door, and opens beta's cage, and starts looking for blue. In fallen kingdom Owen and Claire try looking for Blue because a volcano. It is about to blow. But before they even got there Blue got captured by Dino control. He was taken to a mansion of dinosaurs to get looked at from a cage including the Indoraptor, GIGANATOSAURUS, PYRORAPTOR, DIMETRODON and GIGANOTOSAURUS. Giganatosaurus was the biggest dinosaur in Jurassic World, but sadly it died by 18 feet long claws by the Theirozosaurus and the famous T-REX. THEIROZOSAURUS. Pyroraptor was first introduced in the snowy mountains where Owen and Claire crashed in the movie. The pyroraptors first attack was to jump into the water under the ice so it could jump at them out of the water.

Dimetrodons have large fins on there back, but the fin is helpful for stabbing people.

It is scary.
