LITERACY & NUMERACY

In Content Knowledge students have begun their new unit 'The Viking Age: Gods, Giants & Dwarves'. Students have enjoyed learning about the history of the Vikings.

In Text Construction students have been learning how to add dialogue and transition words to their narrative writing.

In Numeracy students have been utilising their mathematical skills to solve a range of real life problems. They completed a project called 'Taco Tuesday' in which they calculated costs around hosting a dinner party.

SKILL IN FOCUS:

Some students may feel they are in the 'Yellow Zone' in preparation for the upcoming Student Led Conferences. The YELLOW ZONE describes when our energy is higher, and our internal state starts to elevate. Our emotions get a little stronger. We may be experiencing stress, frustration, anxiety, excitement, silliness, confusion, nervousness, be overwhelmed, or have the wiggles, when in the Yellow Zone. In class, we will be practicing our conferences in preparation for Friday to ease nerves. We know students will do great!

UPCOMING LEARNING

Content Knowledge: Vikings

Text Construction: Figurative Language

Numeracy: Addition and Subtraction (money)

Personal Learning: Zones of Regulation

Reminders

Please ensure your child completes their nightly reading homework and uploads completed books on the Premiers Reading Challenge website.
