

Classroom Moments

TEACHER MESSAGE

During book week we explored the story "The colours of Home" Students created their artwork related to the book

Teacher's Note

This term, students had lots of fun exploring a variety of creative art activities. They experimented with colourful tissue paper to create unique collages, carefully choosing colours, shapes and textures to make their artwork special. Students also explored recycled materials, discovering creative ways to turn everyday objects into exciting works of art. Making sock puppets was a favourite activity, allowing students to create their own character from the book "The little pigs. Painting activities encouraged students to experiment with colours and different materials. Throughout the term, students enjoyed being creative in art making.
